COMMENT SOUGHT ON ADVANTAGE CELLULAR SYSTEMS, INC., REQUEST FOR COST-BASED HIGH-COST UNIVERSAL SERVICE SUPPORT

WC Docket No. 05-337
CC Docket No. 96-45

Comment Date: August 20, 2009
Reply Comment Date: September 4, 2009

On March 27, 2009, Advantage Cellular Systems, Inc. (Advantage), a wireless competitive eligible telecommunications carrier (ETC), filed a request to receive cost-based uncapped high-cost universal service support.¹ The Commission's *Interim Cap Order* adopted an emergency cap on the amount of high-cost universal service support that competitive ETCs may receive.² The *Interim Cap Order* stated, however, that a competitive ETC will not be subject to the interim cap on high-cost universal service support to the extent that it files cost data demonstrating that its costs meet the support threshold in the same manner as the incumbent local exchange carrier.³ Advantage states that its cost study demonstrates the extremely high cost associated with the provision of wireless telecommunications in its rural service areas and that it is in the public interest for Advantage to receive high-cost support exempt from the cap.⁴ Advantage further requests that its high-cost support not be determined directly on the basis of its costs, but rather it receive support in accordance with the identical support rule set forth in section 54.307 of the Commission's rules.⁵

Interested parties may file **comments on or before August 20, 2009**, and **reply comments on or before September 4, 2009**. All pleadings are to reference **WC Docket No. 05-337 and CC Docket No.**
