## **THE FCC'S OFFICE OF ENGINEERING AND TECHNOLOGY ANNOUNCES WCS COALITION AND SIRIUS XM DEMO TESTS**

### **WT Docket No. 07-293**

The WCS Coalition and Sirius XM Radio Inc. have submitted various test results in WT Docket 07-293 to evaluate the potential for interference from proposed mobile operations in the Wireless Communications Service (WCS) at 2305 – 2320 MHz and 2345 – 2360 MHz to the Satellite Digital Audio Radio Service (SDARS) at 2320 – 2345 MHz. The WCS Coalition and Sirius XM will each conduct demonstration tests of potential interference or non-interference at a location near Dulles Airport for FCC staff and other interested parties.

The demonstration tests will be conducted on Tuesday, July 28, 2009 – Thursday, July 30, 2009, from 10 AM – 5 PM each day. If necessary, additional demonstration tests may be conducted on Friday, July 31. The testing will be open to the public. However, many of the demonstration tests will be performed with equipment installed in vehicles and space is limited. For questions concerning this demonstration testing and/or to register to attend the testing, please contact Ira Keltz, (202) 418-0616, e-mail [Ira.Keltz@fcc.gov](mailto:Ira.Keltz@fcc.gov).
