By the Chief, Video Division, Media Bureau:

1. The Commission has before it a petition for rulemaking filed by Multimedia Holdings Corporation (“MHC”), the permittee of station KNAZ-TV, channel 2, Flagstaff, Arizona. MHC is currently operating on its allotted pre-transition DTV channel 22 pursuant to Special Temporary Authority (“STA”).¹ MHC requests the substitution of channel 22 for channel 2 at Flagstaff.

2. MHC was allotted DTV channel 22 in the initial DTV Table of Allotments,² but chose to return the station to its allotted analog channel 2 for post-transition digital operations.³ MHC states that it intended to use the station’s channel 2 analog antenna to provide post-transition digital service, but that severe ice storms damaged the antenna and rendered it unusable.⁴ MHC further states that acquiring a new channel 2 digital antenna and installing it on the existing tower would cost several hundred thousand dollars.⁵

3. MHC also asserts that the public interest would be served by allotting channel 22 for post-transition use because it can provide innovative new services to the public using that channel. According to MHC, it plans “to deploy the new mobile ATSC standard for mobile digital television as soon as work is

⁴ MHC Petition for Rulemaking at 5. On July 7, 2008, the station was granted an STA to operate its analog facility at reduced power due to equipment damage. See File No. BLSTA-20080513ACD. MHC notified the Commission on April 16, 2009 that the analog facility had gone silent due to equipment failure. See File No. BLSTA-20090416ANL.

⁵ *Id.* at 6. MHC’s original proposal would have resulted in a loss of service to approximately 30,000 persons who resided within the Grade B contour of KNAZ-TV, and MHC filed several supplements to its rulemaking petition to address this issue. At the staff’s request, and as a means of restoring service to the loss area, MHC filed an application to convert its existing television translator station K06AE, Prescott, Arizona, to digital operations at a new site. See File No. BDFCDTV-20090604ACN, granted July 9, 2009.

finished on the standard and equipment implementing that standard is commercially available.”⁶ MHC states that field tests have indicated that mobile DTV will work effectively only on UHF and high VHF frequencies, and that in all likelihood, channel 2 will not work with the new mobile DTV standard.⁷

4. We believe that, as supplemented, MHC’s proposal warrants consideration. DTV channel 22 can be substituted for DTV channel 2 at Flagstaff, Arizona as proposed, in compliance with the principal community coverage requirements of Section 73.625(a) of the Commission’s rules,⁸ at 34-58-06 N. and 111-30-28 W. In addition, we find that this channel change meets the technical requirements set forth in Sections 73.616, 73.622(f)(5) and 73.623 of the Commission’s rules.⁹ We propose to substitute DTV channel 22 for DTV channel 2 for station KNAZ-TV at Flagstaff with the following specifications:

City and State	DTV Channel	DTV Power (kW)	Antenna HAAT (m)
Flagstaff, Arizona	22	283	465

5. Accordingly, we seek comments on the proposed amendment of the DTV Table of Allotments, Section 73.622(i) of the Commission’s rules,¹⁰ for the community listed below, to read as follows:

Channel No.

City and State	Present	Proposed
Flagstaff, Arizona	2, 13, 18, 32	13, 18, 22, 32

6. The Commission’s authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. Pursuant to Section 73.623(h) of the rules, mutually-exclusive applicants will be provided a 90-day period of time, from the date of a public notice identifying mutually-exclusive proposals, to resolve their mutual-exclusivity via engineering amendment or settlement.¹¹ If we receive an application on or before the date for filing initial comments in this proceeding, which proposes a facility which is mutually-exclusive with the proposal set forth herein, we will issue a public notice and the parties will have 90 days within which to resolve their mutual-exclusivity. If the parties resolve their mutual-exclusivity, we will complete the rulemaking process by issuing the appropriate order. If the parties are unable to resolve their mutual-exclusivity, we will terminate this proceeding and dismiss the maximization application.

7. Pursuant to Sections 1.415 and 1.419 of the Commission’s rules, interested parties may file comments on or before [15 days after publication in the Federal Register] and reply comments on or before [25 days after publication in the Federal Register], and are advised to read the Appendix for the proper

Any filing that is not addressed to the Office of the Secretary will be treated as filed on the day it is received in the Office of the Secretary.¹² Accordingly, failure to follow the specified requirements may result in the treatment of a filing as untimely.

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to a rule making proceeding to amend the DTV Table of Allotments, Section 73.622(i). This document does not contain proposed information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, therefore, it does not contain any proposed information collection burden "for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, § 3506(c)(4).

10. For further information concerning the proceeding listed above, contact Joyce L. Bernstein, Media Bureau, (202) 418-1600. For purposes of this restricted notice and comment rule making proceeding, members of the public are advised that no *ex parte* presentations are permitted from the time the Commission adopts a Notice of Proposed Rule Making until the proceeding has been decided and such decision in the applicable docket is no longer subject to reconsideration by the Commission or review by any court. An *ex parte* presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such a request or any summary of any new information shall be served by the person making the presentation upon the other parties to the proceeding in a particular docket unless the Commission specifically waives this service requirement. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. APPENDIX

1. Pursuant to authority found in 47 U.S.C. Sections 4(i), 5(c)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and 47 C.F.R. Sections 0.61, 0.204(b) and 0.283, IT IS PROPOSED TO AMEND the DTV Table of Allotments, 47 C.F.R. Section 73.622(i), as set forth in the *Notice of Proposed Rule Making* to which this *Appendix* is attached.

2. Showings Required. Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this *Appendix* is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. Cut-off protection. The following procedures will govern the consideration of the filings in this proceeding;

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.) Because the Commission has not yet lifted its freeze on the filing of petitions for rulemaking to establish new DTV channel allotments and for changes in community of license,¹³ we will not consider counterproposals which propose new allotments or changes in community of license.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; service. Pursuant to applicable procedures set out in 47 C.F.R. Sections 1.415 and 1.420, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this *Appendix* is attached. All submissions by parties to this proceeding or by persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. The person filing the comments shall serve comments on the petitioners. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. A certificate of service shall accompany such comments and reply comments (*see* 47 C.F.R. Section 1.420(a), (b) and (c)). Comments should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554.

5. Number of Copies. In accordance with the provisions of 47 C.F.R. Section 1.420, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be
