**PUBLIC SAFETY AND HOMELAND SECURITY BUREAU SEEKS COMMENT ON  
REGION 24 (MISSOURI) 800 MHz REGIONAL PLANNING COMMITTEES'  
NON-STREAMLINED AMENDMENT TO REFLECT 800 MHz BAND RECONFIGURATION  
IN THE 806-809/851-854 MHz BAND**

**WT Docket No. 02-55 and PR Docket No. 93-131**

**Comments Due: August 31, 2009**  
**Reply Comments Due: September 10, 2009**

*Introduction.* The *800 MHz Report and Order* and subsequent orders in WT Docket No. 02-55 provide for reconfiguration of the 800 MHz band in order to eliminate harmful interference to public safety operations within the band.<sup>1</sup> As part of band reconfiguration, in all non-border areas, the former National Public Safety Planning Advisory Committee (NPSPAC) band at 821-824/866-869 MHz has shifted fifteen megahertz lower in the band to 806-809/851-854 MHz, and NPSPAC incumbents are in the process of relocating from the old to the new band. As a consequence of 800 MHz band reconfiguration, all non-border 800 MHz RPCs<sup>2</sup> are required to amend their regional plans currently on file with the Commission to reflect the fifteen-megahertz shift in the NPSPAC band from 821-824/866-869 MHz to 806-809/851-854 MHz.

The Commission's policies require the RPCs to prepare and submit regional plans for use of the NPSPAC band in their respective Public Safety Regions.<sup>3</sup> The RPCs must also update their regional plans as needed to conform to changes in the nationwide NPSPAC band plan, and to reflect other

<sup>2</sup> RPCs for all NPSPAC regions in Waves 1, 2, and 3, other than Region 19 (New England), must file amendments. NPSPAC Region 19 and all NPSPAC regions in Wave 4 are excluded from this requirement, and RPCs for these regions are not required to submit amended plans at this time. We will provide information on the plan amendment process for these regions at a later date, after the 800 MHz Transition Administrator determines replacement channel assignments for NPSPAC licensees in the U.S. - Canada and U.S. - Mexico border areas.

<sup>3</sup> See 47 C.F.R. § 90.16 (no assignments will be made in spectrum designated for the Public Safety National Plan until a regional plan for the area has been accepted by the Commission); see also *Development and Implementation of a Public Safety National Plan and Amendment of Part 90 to Establish Service Rules and Technical Standards for Use of the 821-824/866-869 MHz Bands by the Public Safety Services*, Gen. Docket No. 87-112, *Report and Order*, 3 FCC Rcd 905 (1987) (*National Plan Report and Order*).

changes in the disposition of NPSPAC channels within the region, technical requirements, or procedures for assigning channels.<sup>4</sup>

On February 10, 2009, the Bureau directed RPCs for non-border NPSPAC regions to file amendments to their 800 MHz regional plans by April 13, 2009, to bring them into conformity with the new 800 MHz band plan.<sup>5</sup> Plan amendments were subject to a streamlined filing and approval procedure provided that they were limited to changes in frequency listings based on the new band plan. Alternatively, RPCs could elect to file amended regional plans by June 10, 2009, that combined rebanding-related changes with other modifications that were not rebanding-related, provided that they notified the Bureau by April 13, 2009 of their intent to do so.

*Review of the Streamlined and Non-Streamlined Plan Amendments.* Streamlined Regional Plan Amendments are limited to shifting channel assignments in the existing plan downward by fifteen megahertz. RPCs were allowed to submit such amendments without obtaining adjacent region concurrence, and were permitted to include administrative updates (*e.g.*, changes to RPC by-laws or membership) in their amendments under this process. The Bureau waived normal public notice and comment procedures for processing the streamlined amendments.

Non-Streamlined Regional Plan Amendments include other substantive modifications to regional plans, *e.g.*, changes to channel allocations within the region, technical parameters, or procedures for assigning channels. RPCs are required to obtain adjacent region concurrence to support such plan amendments prior to filing. After initial review, the Bureau will place non-streamlined amendments on public notice for comment prior to approval.

*Region 24 Non-Streamlined Plan Amendment.* On March 30, 2009, the Region 24 (Missouri)<sup>6</sup> 800 MHz NPSPAC Regional Planning Committee submitted a proposed Non-Streamlined Plan Amendment for review and approval.<sup>7</sup> In addition to changes to the channel allocations,<sup>8</sup> the Non-Streamlined Amendment includes the following modifications:

- Replaces outdated technical parameters to improve spectrum implementation and efficiency within Region 24.<sup>9</sup>
- Adopts a zone approach for using channel allotments between counties in the same zone, permitting the transfer of channel allotments between counties within the same zone. The North and South zones were established to maximize channel availability

<sup>6</sup> The Region 24 (Missouri) 800 MHz NPSPAC regional planning area encompasses the entire state of Missouri, consisting of 114 counties and the City of St. Louis (which does not reside within a Missouri county).

- Requires agencies to relinquish vacated frequencies under certain conditions: (1) If the new system fully replaces functions of the old one, and (2) the new system has operated satisfactorily for a sufficient time period to permit a smooth transition from former operations and demonstrates the degree of reliability necessary for the agency/applicant to complete their mission.<sup>11</sup>

Furthermore, Region 24 provided evidence of coordination with its eight adjacent regions: Region 4 (Arkansas), Region 13 (Illinois), Region 15 (Iowa), Region 16 (Kansas), Region 17 (Kentucky), Region 26 (Nebraska), Region 34 (Oklahoma), and Region 39 (Tennessee).<sup>12</sup>

Interested parties may file comments on the Non-Streamlined Plan Amendment on or before **August 31, 2009**. Parties interested in submitting reply comments must do so on or before **September 10, 2009**. All comments and reply comments should reference the subject plan amendment and **PR Docket No. 93-131** and **WT Docket No. 02-55**. Comments and reply comments may be filed by using (1) the Commission's Electronic Comment Filing System (ECFS), (2) the Federal Government's eRulemaking Portal, or (3) by filing paper copies. *See* Electronic Filing of Documents in Rulemaking Proceedings, 63 FR 24121 (1998).

- Electronic Filers: Comments and reply comments may be filed electronically using the Internet by accessing the ECFS: <http://www.fcc.gov/cgb/ecfs> or the Federal eRulemaking Portal: <http://www.regulations.gov>. Filers should follow the instructions provided on the website for submitting comments.
- For ECFS Filers: In completing the transmittal screen, filers should include their full name, U.S. Postal Service mailing address, and the rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions, filers should send an email to [ecfs@fcc.gov](mailto:ecfs@fcc.gov) and include the following words in the body of the message: "get form." A sample form and directions will be sent in response.
- Paper Filers: Parties who choose to file by paper must file an original and four copies of each filing.

Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although the Commission continues to experience delays in receiving U.S. Postal Service mail). All filings must be addressed to: Secretary, Office of the Secretary, Federal Communications Commission.

- The Commission's contractor will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, NE, Suite 110, Washington, D.C. 20002. The filing hours at this location are 8:00 a.m. to
