Public Safety and Homeland Security Bureau and Wireless Telecommunications Bureau Announce Special Procedures to Assist Licensees in Areas Impacted by California Wildfires

The Public Safety and Homeland Security Bureau and the Wireless Telecommunications Bureau announce procedures to help public safety, private and commercial wireless licensees maintain or resume operations in the event their facilities are threatened or compromised by the California wildfires. For additional information, licensees should contact the Public Safety and Homeland Security Bureau or Wireless Telecommunications Bureau staff listed below.

Special Temporary Authority: Emergency requests for special temporary authority (STA) prompted by the effects of the wildfires and filed pursuant to Section 1.931 of the Commission's rules may be submitted by informal letter or email or, if necessary, by telephone. Licensees may file requests electronically through the Universal Licensing System (ULS). All requests should provide the technical parameters of the proposed operation and a contact point. Requests should include the following certification: "Neither the applicant nor any party to this application is subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 862." These requests will be handled as expeditiously as possible. To file STA requests via email or fax, or to receive an oral STA during regular business hours, licensees may contact the following personnel:
