## PUBLIC SAFETY AND HOMELAND SECURITY BUREAU SEEKS COMMENT ON REGION 9 (FLORIDA) REVISED 700 MHZ REGIONAL PLAN

PS Docket No. 06-229 and WT Docket No. 02-378

**Comments Due: February 5, 2009**

**Reply Comments Due: February 17, 2009**

*Introduction.* On January 31, 2008, the Region 9 (Florida)<sup>1</sup> 700 MHz Regional Planning Committee (RPC) (Region 9) submitted a proposed revised 700 MHz Public Safety Plan (Revised Plan) for General Use<sup>2</sup> spectrum in the 769-775/799-805 MHz band.<sup>3</sup> On March 31, 2008, to cure certain deficiencies identified upon initial review, Region 9 resubmitted Revised Plan Section 4.5 and provided missing letters of concurrence (LOC) from adjacent regions, Region 1 (Alabama) and Region 10 (Georgia).<sup>4</sup> On October 24, 2008, Region 9 also submitted updated LOCs from Region 1 and Region 10.<sup>5</sup>

*Background.* In 1998, the Federal Communications Commission (Commission) established a structure to allow RPCs optimal flexibility to meet state and local needs, encourage innovative use of the spectrum, and accommodate new and as yet unanticipated developments in technology and equipment.<sup>6</sup> Each committee of the fifty-five RPCs is required to submit a plan for the General Use spectrum.<sup>7</sup> The

<sup>1</sup> The Region 9 (Florida) 700 MHz regional planning area includes the entire state of Florida.

<sup>2</sup> The General Use spectrum is administered by RPCs and is licensed for public safety services on a site-by-site basis in accordance with the relevant Commission-approved regional plan and frequency coordination.

<sup>3</sup> See Letter from Ray Carlson, Chairman, Region 9 700 MHz Regional Planning Committee, to Federal Communications Commission, WT Docket No. 02-378 (filed Jan. 31, 2008). Region 9 submitted its original plan to the Commission on April 24, 2007.

<sup>4</sup> See Letter from Ray Carlson, Chairman, Region 9 700 MHz Regional Planning Committee, to Federal Communications Commission, WT Docket No. 02-378 (filed Mar. 31, 2008) (submitting revised Section 4.5 and providing letters of concurrence from Region 1 (Alabama) and Region 10 (Georgia)).

<sup>5</sup> See Letter from Ray Carlson, Chairman, Region 9 700 MHz Regional Planning Committee, to Federal Communications Commission, WT Docket No. 02-378 (filed Oct. 24, 2008) (submitting updated letters of concurrence from Region 1 (Alabama) and Region 10 (Georgia)).

<sup>6</sup> See Development of Operational, Technical and Spectrum Requirements for Meeting Federal, State and Local Public Safety Agency Communication Requirements Through the Year 2010, WT Docket No. 96-86, *First Report and Order and Third Notice of Proposed Rulemaking*, 14 FCC Rcd 152 (1998) (*First Report and Order*); *Second Memorandum Opinion and Order*, 15 FCC Rcd 16844 (2000). See also 47 C.F.R. § 90.527.

<sup>7</sup> See 47 C.F.R. §§ 90.527, 90.531. Each RPC must incorporate certain common elements into its 700 MHz plan. The 700 MHz public safety band contains 24 MHz of spectrum for public safety services at 763-775 and 793-805

Commission's role in relation to the RPCs is limited to (1) defining the regional boundaries; (2) requiring fair and open procedures, *i.e.*, requiring notice, opportunity for comment, and reasonable consideration; (3) specifying the elements that all regional plans must include; and (4) reviewing and accepting proposed plans (or amendments to approved plans) or rejecting them with an explanation.<sup>8</sup>

The Commission expects RPCs to ensure that they represent all public safety entities in their regions by providing reasonable notice of all meetings and deliberations. Further, regional plans must include an explanation of how all eligible entities within the region were given such notice.<sup>9</sup> For the initial meeting, called by the convenor to form the RPC and hold elections, the Commission requires at least sixty days notice.<sup>10</sup> In developing their regional plans, RPCs must ensure that their proposed plans comply with the rules and policies governing the 700 MHz public safety regional planning process.<sup>11</sup> We also encourage the RPCs to consider utilizing the guidelines developed by the Public Safety National Coordination Committee (NCC).<sup>12</sup> RPCs may approach the assignment of the spectrum differently, *e.g.*, by making specific assignments to eligible public safety entities, or by establishing an allotment pool approach based on political boundaries such as counties.

On July 31, 2007, the Commission adopted a *Second Report and Order* revising the rules governing wireless licenses in the 700 MHz band.<sup>13</sup> The Commission adopted a plan for the 700 MHz band to establish a nationwide, interoperable public safety broadband communications network for the benefit of state and local public safety users. The Commission designated the lower half of the 700 MHz public safety band for broadband communications (763-768/793-798 MHz) and consolidated existing narrowband allocations in the upper half of the public safety 700 MHz band (769-775/799-805 MHz).

In revising the band plan for the public safety 700 MHz band, the Commission noted that consolidating the narrowband channels in the upper part of the band will impact approved and pending 700 MHz RPC plans (*i.e.* require that the plans be amended).<sup>14</sup> The Commission required RPCs with

MHz, and the narrowband allocation is divided into segments by designated purpose: General Use, Interoperability, Secondary Trunking, State License, Low Power and Reserve channels. A list of 700 MHz RPCs and region activities is available at <http://www.fcc.gov/pshs/public-safety-spectrum/700-MHz>.

<sup>8</sup> *First Report and Order*, 14 FCC Rcd at 195 ¶ 87.

<sup>9</sup> *Id.* at 193-94 ¶ 84. RPCs must promptly adopt operating procedures that “ensure that all entities will be given reasonable notice of all committee meetings and deliberations.” *Id.* at 195 ¶ 86.

<sup>11</sup> 47 C.F.R. § 90.527; *see also First Report and Order*, 14 FCC Rcd at 190-96 ¶¶ 77-89.

<sup>12</sup> The NCC was a federal advisory committee established by the Commission in 1999 to address and advise the Commission on operational and technical parameters for use of the 700 MHz public safety band. In addition, the NCC was tasked with providing voluntary assistance in the development of coordinated regional plans, and developed a *Regional Planning Guidebook*. Following the sunset of the NCC's charter on July 25, 2003, the National Public Safety Telecommunications Council (NPSTC) agreed to continue to provide assistance to regional planners. A copy of the 700 MHz Regional Planning Guidebook is available at the NPSTC website <http://www.npstc.org/nccsubcom.jsp>.

approved plans or plans on file to submit amended plans consistent with the decisions adopted in the *Second Report and Order* by November 23, 2007.<sup>15</sup> On November 9, 2007, the Public Safety and Homeland Security Bureau (the Bureau) extended the deadline for RPCs to submit amended plans, consistent with the decisions adopted in the *Second Report and Order*, to January 31, 2008, and provided additional guidance for the development of plan amendments.<sup>16</sup> In a Public Notice released December 27, 2007, the Bureau subsequently provided further guidance with respect to the submission of amended RPC plans.<sup>17</sup>

*Region 9 Revised 700 MHz Plan.* The Region 9 Revised Plan pre-allocates the consolidated narrowband General Use spectrum by county.<sup>18</sup> The Revised Plan was coordinated with the two adjacent regions to Region 9: Region 1 (Alabama), Region 10 (Georgia).<sup>19</sup> We have reviewed the Region 9 Revised Plan and find it to be compliant with the applicable Commission rules and policies, and tentatively accept the Plan.

Prior to taking further action on the Revised Plan, by this *Public Notice*, we solicit comments on the Plan. Pursuant to Sections 1.415 and 1.419 of the Commission's rules, 47 C.F.R. §§ 1.415, 1.419, interested parties may file comments on the Region 9 Revised 700 MHz Plan on or before **February 5, 2009** and reply comments on or before **February 17, 2009**. All comments and reply comments should reference the subject Revised Plan and **PS Docket No. 06-229** and **WT Docket No. 02-378**. Comments and reply comments may be filed by using (1) the Commission's Electronic Comment Filing System (ECFS), (2) the Federal Government's eRulemaking Portal, or (3) by filing paper copies.
