**PUBLIC SAFETY AND HOMELAND SECURITY BUREAU SEEKS COMMENT ON A
REQUEST FOR WAIVER FILED BY SYOSSET FIRE DISTRICT, NEW YORK TO MODIFY ITS
PUBLIC SAFETY STATION WPYJ816 USING A PART 22 TRUNKED MOBILE FREQUENCY**

File No. 0003065700

Comment Date: April 30, 2009

Reply Comment Date: May 11, 2009

The Public Safety and Homeland Security Bureau seeks comment on the above-captioned application and waiver request,¹ as amended, initially filed on June 11, 2007, by the Syosset Fire District, New York (Syosset). Syosset requests to modify its public safety license, Station WPYJ816, Syosset, New York by adding frequency 473.1375 MHz and deleting frequency 473.200 MHz.² Specifically, Syosset seeks to add frequency 473.1375 MHz as “a mobile transmit channel paired with the base/repeater channel 470.1375 MHz.”³ Syosset observes that acquiring frequency 473.1375 MHz would “create a natural three megahertz pairing with Syosset’s repeater on 470.1375 MHz.”⁴

Section 22.651 of the Commission’s rules designates frequency 473.1375 MHz for trunked mobile service, and Section 20.9(a)(6) states that Part 22 frequencies shall be regulated as a commercial mobile radio service.⁵ Because frequency 473.1375 MHz is governed by Part 22 and therefore “not generally available for public safety use,” Syosset seeks waiver relief of Sections 22.651 and 20.9(a)(6),⁶

¹ File No. 0003065700 (filed June 11, 2007, amended June 19, 2007, November 25, 2008, and December 2, 2008) and attached “Description of the Application and Request for Waiver” (Waiver Request), “Description of Amendment” (Description), and “Supplement to Request for Waiver” (Supplement).

² See Description at 1. As of the latest amendment, Syosset has deleted other modifications previously requested on the application. Syosset observes that frequency 473.200 MHz “is now used by Westchester County.” *Id.* On November 15, 2007, Westchester County obtained 473.200 MHz through a waiver pursuant to Section 337(c) of the Communications Act of 1934, as Amended; see County of Westchester, New York, *Order*, 22 FCC Rcd 19872 (PSHSB PD 2007). The grant of this frequency to Westchester was warranted in part because “Syosset Fire District has a pending application and waiver request seeking, inter alia, to delete frequency 473.2000 MHz from its license so that Westchester may use the frequency.” See *id.* at 19875 ¶ 9 and n. 28 referring to Syosset’s instant application.

pursuant to Section 337(c) of the Communications Act of 1934, as amended,⁷ to use the frequency for public safety communications purposes.⁸

As a part of the analysis under Section 337(c) of the Act, as well as the Commission's waiver criteria, we also seek comment on whether the 700 MHz public safety band would provide a viable alternative, particularly in light of the approaching June 12, 2009 digital television transition date,⁹ and the Commission's actions in facilitating a nationwide, interoperable public safety network.¹⁰

Pursuant to Sections 1.415 and 1.419 of the Commission's rules, 47 C.F.R. §§ 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this *Public Notice*.
