SOUTHWEST), VERIZON SOUTH INC. AND VERIZON NORTH RETAIN CO. TO
DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

WC Docket No. 10-194
Comp. Pol. File No. 954

Comments Due: November 1, 2010

Section 214 Application

Applicants: Verizon California Inc., Verizon Florida LLC, GTE Southwest Incorporated (d/b/a Verizon Southwest), Verizon South Inc. and Verizon North Retain Co.

On September 7, 2010, Verizon California Inc., located at 112 Lakeview Canyon Road, Thousand Oaks, CA 91362; Verizon Florida LLC, located at 201 North Franklin Street, One Tampa City Center, Tampa, FL 33602; GTE Southwest Incorporated (d/b/a Verizon Southwest), located at 600 Hidden Ridge, Irving, TX 75038; Verizon South Inc., located at 703 East Grace Street, Richmond, VA 23219; and Verizon North Retain Co., located at 600 Hidden Ridge, HQE03H09, Irving, TX 75038 (collectively Verizon or Applicants), filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services in Verizon's remaining service territory in the former Contel areas of California, North Carolina, Pennsylvania, Texas and Virginia (former Contel areas) and in Verizon's remaining service territory in the former GTE areas of California, Florida, Pennsylvania, Texas and Virginia (former GTE areas) (collectively Service Areas).

Verizon indicates that it currently offers Special Access Wideband Data services in the former Contel areas. Verizon states that it also provides Special Access Wideband Analog services in the former Contel and GTE areas. Verizon indicates that these services are offered under Verizon's FCC Tariff Nos. 14 or 16. Verizon explains that Special Access Wideband Data service provides dedicated facilities between customer designated premises or between a customer designated premise and a Telephone Company hub for the transmission of synchronous serial data at the rate of 18.75 kbps, 19.2 kbps, 40.8 kbps, 50.0 kbps or 230.4 kbps, or asynchronous serial data at rates of up to 19.2 kbps, 50.0 kbps or 230.4 kbps. Verizon further explains that Special Access Wideband Analog services provide a circuit between two customer designated premises or locations, or between a customer designated premise or location and a Telephone Company hub. Verizon specifies that its Special Access Wideband Analog services provide for the transmission of wideband signals at bandwidths from 60 to 108 kHz (Group), 312 to 552 kHz (Supergroup), 564 to 3084 kHz (Mastergroup), 300 Hz to 18 kHz, 29 kHz to 44 kHz, or 28kHz to 44 kHz. Verizon states that it plans to discontinue its Special Access Wideband Data services and Special Access

Wideband Analog services in the Service Areas as appropriate on or after December 2, 2010, subject to regulatory approval. Verizon asserts that suppliers have discontinued manufacturing the equipment required to provision these services, and as a result parts are no longer readily available. Verizon, however, maintains that the public convenience and necessity will not be impaired by the proposed discontinuance because currently there are no customers for these services in the Service Areas. In addition, Verizon asserts that Verizon and other providers offer alternative services including Special Access Voice Grade, Digital Data, and Special Access High Capacity (DS1 and DS3 services) as a replacement for Special Access Wideband Data service, and Special Access High Capacity DS3 service as a replacement for Special Access Wideband Analog service. Verizon states that it is considered dominant with respect to the services to be discontinued.

In accordance with section 63.71(c) of the Commission's rules, Verizon's application will be deemed to be granted automatically on the 60th day after the release date of this public notice, unless the Commission notifies Verizon that the grant will not be automatically effective. In its application, Verizon indicates that it anticipates discontinuing service on or after December 2, 2010, subject to regulatory approval. Accordingly, pursuant to section 63.71(c) and the terms of Verizon's application, absent further Commission action, Verizon may terminate its Special Access Wideband Data services and Special Access Wideband Analog services in the Service Areas as appropriate on or after **December 2, 2010**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **November 1, 2010**. Such comments should refer to **WC Docket No. 10-194 and Comp. Pol. File No. 954**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998). Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/cgb/ecfs/>. Filers should follow the instructions provided on the Web site for submitting comments. Generally, only one copy of an electronic submission must be filed. In completing the transmittal screen, filers should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, filers should send an e-mail to ecfs@fcc.gov, and include the following words in the body of the message, "get form."
