VIDEO PROGRAMMING AND EMERGENCY ACCESS ADVISORY COMMITTEE ANNOUNCEMENT OF MEMBERS

Committee to Focus on Matters Pertaining to IP Closed Captioning, Video Description, Access to Emergency Information and User Interface Accessibility

On December 7, 2010, Chairman Julius Genachowski announced the establishment and appointment of members of the Video Programming Accessibility Access Advisory Committee (VPAAC), an advisory committee required by the Twenty-first Century Communications and Video Accessibility Act of 2010 (the Accessibility Act).¹ In a public notice released on October 19, 2010, the Commission solicited nominations for membership on the VPAAC in accordance with the Accessibility Act.² The nominations period closed on November 1, 2010.³

The first meeting shall be on **January 13, 2011**, from 9:00 a.m. to 5:00 p.m., at Commission Headquarters. All meetings of the Committee shall be open to the public.

VPEAAC MISSION

The purpose of the VPEAAC is to develop recommendations on closed captioning of Internet programming previously captioned on television;⁴ the compatibility between video programming delivered using Internet protocol and devices capable of receiving and displaying such programming in order to facilitate access to captioning, video description and emergency information;⁵ video description and accessible emergency information on television programming delivered using Internet protocol or digital broadcast television;⁶ accessible user interfaces on video programming devices;⁷ and accessible

programming guides and menus.⁸ Within 6 months of its first meeting, the VPEAAC shall submit recommendations concerning the provision of closed captions for Internet-delivered video programming and the ability of video devices to pass through closed captions contained on Internet-based video programming. By April 8, 2012, the VPEAAC shall submit recommendations on the remaining issues listed above.

At the VPEAAC's first meeting, the Committee will be divided into the following four working groups, each of which will be assigned specific tasks related to the Committee's purposes:

Working Group 1: Internet protocol based closed captioning: Identification of protocols, technical capabilities, and technical procedures needed to encode, transport, receive, and render closed captioning of video programming, except for consumer generated media, delivered using Internet protocol;⁹

Working Group 2: Pass through of closed captioning and video description: Recommendations to ensure compatibility between video programming delivered using Internet protocol and devices capable of receiving and displaying such programming in order to facilitate access to closed captions and video description;

Working Group 3: Emergency information: Identification of methods to encode, transport, receive, render and convey emergency information provided on video programming in a manner that is accessible to persons who are blind or visually impaired; and

Working Group 4: Accessibility of user interfaces, apparatus functions, on-screen text menus, and video programming guides and menus provided on navigational devices: Identification and recommendation of standards, protocols, and procedures to enable access to these various features and functions.

APPOINTMENT OF MEMBERS

By this Public Notice, the Chairman of the Commission appoints 45 (forty-five) members of the VPEAAC. Of this number, eleven (11) represent interests of persons with disabilities; six (6) represent interests of closed captioning and video description providers; ten (10) represent device manufacturers; four (4) represent Internet and software companies; two (2) represent broadcasters; and twelve (12) represent video programming distributors and providers. The VPEAAC's membership meets the Accessibility Act's goals of assembling a committee that has the technical knowledge and engineering experience needed to meet the tasks assigned. All appointments are effective immediately and shall terminate December 7, 2012, or when the Committee is terminated, whichever is earlier.
