Re: Applications of Comcast Corporation, General Electric Company and NBC Universal, Inc. For Consent to Assign Licenses or Transfer Control of Licensees, MB Docket No. 10-56; Request for Enhanced Confidential Treatment

Dear Messrs Hammer, Metzger and Solomon:

By your letters of April 27, 2010, and April 29, 2010, pursuant to the terms of the *Second Protective Order*,¹ you request enhanced confidential treatment for certain information and documents that you plan on filing with the Commission in connection with two economic reports that were requested by Commission staff. Subject to the limitations set forth below, we grant that request.

You generally represent that the information for which you seek protection “constitutes some of the Applicants’ most sensitive business information,” and that disclosure of such information to the Applicants’ competitors or people with whom the Applicants do business “would have a serious negative effect on their businesses and place Applicants at a significant competitive disadvantage.” Further, for each category of information for which you seek protection, you explain why that information should not be publicly disclosed and should be designated Highly Confidential.

As we stated in the *Second Protective Order*, consistent with past practice, the Commission will in this proceeding grant more limited access to those materials which, if released to competitors, would allow those competitors to gain a significant advantage in the marketplace. We will permit persons submitting such documents and information to designate those materials as Highly Confidential and, as specified in the *Second Protective Order*, we will limit access to such materials to Outside Counsel of

¹ *Applications of Comcast Corporation, General Electric Company and NBC Universal, Inc. For Consent to Assign Licenses or Transfer Control of Licensees*, MB Docket No. 10-56, Second Protective Order, DA 10-371 (Media Bureau March 4, 2010) (“*Second Protective Order*”).

Record, their employees, and Outside Consultants and experts whom they retain to assist them in this proceeding. We find that such materials are necessary to develop a more complete record on which to base the Commission's decision in this proceeding and therefore require their production. We are mindful of the highly sensitive nature of all information, documents, and data described in this letter, but we must also protect the right of the public to participate in this proceeding in a meaningful way. We conclude that the protections adopted in the *Second Protective Order* give appropriate access to the public while protecting a Submitting Party's competitively sensitive information, and thereby will serve the public interest.

We agree that the information you describe in your letters has generally been allowed to be designated "Highly Confidential" under the Commission's protective orders. Accordingly, to the extent that the information or documents (or portions thereof) both fall within the categories of information listed below and contain Highly Confidential Information, as defined in the *Second Protective Order*, then such information and documents (or portions thereof) may be designated and submitted as "Highly Confidential" under the *Second Protective Order*. To the extent that portions of the economic reports, their attachments, and supporting documents contain documents, information or data that fall within the categories set forth below but do not contain Highly Confidential Information, they are to be produced in unredacted format or submitted as "Confidential" under the *First Protective Order*, as appropriate.
