FORFEITURE ORDER

Adopted: May 3, 2010

Released: May 4, 2010

By the Chief, Video Division, Media Bureau:

I. INTRODUCTION

1. In this Forfeiture Order (“Order”), we issue a monetary forfeiture in the amount of sixteen thousand dollars (\$16,000) to Winston Broadcasting Network, Inc. (“Licensee”), licensee of Station WBNX-TV, Akron, Ohio (“Station”), for its willful and repeated violation of Section 73.670 of the Commission’s Rules (“Rules”)¹ by failing to comply with the limits on commercial matter in children’s programming.

II. BACKGROUND

2. On June 1, 2005, Licensee filed an application to renew the license of the Station (“Application”) (File No. BRCT-20050601CLV). Section IV, Question 5 of the license renewal application form, FCC Form 303-S, requests that the licensee certify that it has complied with the limits on commercial matter in children’s programming specified in Section 73.670 of the Commission’s Rules. Licensee indicated “No” to that certification, indicating in Exhibit 19 and in a June 4, 2007 amendment to the Application, that between February 3, 1998, and August 5, 2003, the Station violated the children’s television commercial limits on eight occasions. Of these overages, one was 15-seconds in duration, one was 30-seconds in duration, five were characterized as host-selling violations, and one was characterized as a program-length commercial violation. Licensee asserted that the 15-second overage occurred as a result of a computer software problem at the WB Network’s technical facilities, and it attributed the 30-second overage to a last minute, unforeseen schedule change. Licensee attributed the host-selling violations and program-length commercial violation to human error and/or inadvertence.

3. Licensee also reported that on ten occasions, the Station aired a commercial for a Nintendo Gameboy video game during the “Pokemon” program. Licensee indicated that the commercial contained an image of three “Pokemon” cards among a six-card fan for “slightly” more than one second. According to Licensee’s description, only half of the letter “M” and the letters “ON” of “Pokemon” were visible. Licensee stated that no “Pokemon” characters were visible and the audio portion of the commercial made no reference to “Pokemon.” Licensee asserted that children viewing the commercial would not perceive any linkage between the “Pokemon” program and the Gameboy commercial. Licensee contended that the Station was unaware of the “fleeting image” in the commercial until October 8, 2002 when it received a memo from the WB Network.

¹ 47 C.F.R. § 73.670.

4. Licensee described the remedial measures taken to prevent future violations of the commercial limits. Moreover, it indicated that between September 4, 2003, and September 21, 2003, it removed from its children's programming schedule "four half-hours" worth of commercials and replaced that time with public service announcements and promotions of educational and informational children's programs. Finally, Licensee argued that its Application demonstrates its "wealth of children's programs" and other "special nonbroadcast efforts it has taken to promote the educational and informational needs of children" and requested that the Commission take into account these "extraordinary efforts" in considering the Station's commercial overages.

5. On October 14, 2008, the Bureau issued a Notice of Apparent Liability for Forfeiture ("NAL") in the amount of twenty thousand dollars (\$20,000) to Licensee for its violations.² In response to the NAL, Licensee filed a Response to Notice of Apparent Liability for Forfeiture on November 13, 2008 ("Response"). In its Response, Licensee argued that reduction of the proposed forfeiture is warranted because: (1) Commission precedent cited in the NAL does not support the finding that the "Pokemon" incident was a program-length commercial; and (2) it has a history of overall compliance with the Rules.

III. DISCUSSION

6. The forfeiture amount proposed in this case was assessed in accordance with Section 503(b) of the Act,³ Section 1.80 of the Rules,⁴ and the Commission's *Forfeiture Policy Statement*.⁵ In assessing forfeitures, Section 503(b)(2)(D) of the Act requires that we take into account the nature, circumstances, extent, and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.⁶

7. In the Children's Television Act of 1990, Pub. L. No. 101-437, 104 Stat. 996-1000, *codified at* 47 U.S.C. §§ 303a, 303b and 394, Congress directed the Commission to adopt rules, *inter alia*, limiting the number of minutes of commercial matter that television stations may air during children's programming, and to consider in its review of television license renewal applications the extent to which the licensee has complied with such commercial limits. Pursuant to this statutory mandate, the Commission adopted Section 73.670 of the Rules, which limits the amount of commercial matter which may be aired during children's programming to 10.5 minutes per hour on weekends and 12 minutes per hour on weekdays. The Commission also stated that a program associated with a product, in which commercials for that product are aired, would cause the entire program to be counted as commercial time (a "program-length commercial").⁷

8. Licensee asserted that Commission precedent cited in the NAL does not support the finding that the "Pokemon" incident was a program-length commercial. Specifically, Licensee referred to the following decisions cited in the NAL, *UTV of San Francisco, Inc. (KBHK-TV)*,⁸ *WPIX, Inc.*,⁹ and *Act*

III Broadcasting License Corp. (WUTV(TV)).¹⁰ Licensee also argued that a viewer would have no reason to believe that the letters “MON” that were visible in the commercial referred to “Pokemon.”

9. The cases Licensee referred to were cited for the proposition that the determination as to whether a particular program is a program-length commercial is not dependent on the duration of the appearance of the program-related product in the commercial announcement. The Commission has previously stated that, where a commercial announcement includes a product related to the program in which the commercial is broadcast, then the program is a program-length commercial regardless of the duration of the appearance of the program-related product in the commercial.

10. We find that the Station’s broadcast of the subject commercial constitutes a program-length commercial. The Commission has consistently held that where a commercial announcement is primarily for a product otherwise unrelated to a program, but that announcement also includes references to or offers of products which are related to the program, then the broadcast of that commercial announcement during the program to which the included products relate will render that program a program-length commercial.¹¹ We believe that the “Pokemon” game cards shown in the commercial relate to the “Pokemon” television program that has the same title. Moreover, we believe that, in the context of the cognitive abilities of young children, there is the potential for confusion between the commercial and the “Pokemon” program regardless of whether any “Pokemon” character is depicted given the image of a “Pokemon” game card contained in the commercial and the consequent likelihood that children may associate it with the program, which bears the same title.

11. We have considered Licensee’s response to the NAL in light of the above statutory factors, our Rules, and the *Forfeiture Policy Statement*. We conclude that Licensee willfully¹² and repeatedly¹³ violated Section 73.670 of the Rules. However, given Licensee’s history of compliance with the Rules, we reduce the forfeiture amount to \$16,000.

IV. ORDERING CLAUSES

12. Accordingly, IT IS ORDERED, pursuant to Section 503(b) of the Communications Act of 1934, as amended, and Sections 0.283 and 1.80 of the Commission’s Rules,¹⁴ that Winston

Rep.), and the Commission has so interpreted the terms in the Section 503(b) context.
