APPLICATION FILED FOR THE TRANSFER OF CONTROL OF SAVVIS, INC. TO CENTURYLINK, INC.

NON-STREAMLINED PLEADING CYCLE ESTABLISHED

WC Docket No. 11-97

Comments Due: June 21, 2011
Reply Comments Due: June 28, 2011

On May 20, 2011, SAVVIS, Inc. (SAVVIS Holdings) and CenturyLink, Inc. (CenturyLink) (together, Applicants) filed a joint domestic and international application, pursuant to section 214 of the Communications Act of 1934, as amended (Act), 47 U.S.C. § 214, requesting authority for the transfer of control of SAVVIS Holdings to CenturyLink.¹

SAVVIS Communications Corporation (SAVVIS), a Missouri corporation, is a wholly owned subsidiary of SAVVIS Holdings, a Delaware corporation. SAVVIS Holdings provides, through SAVVIS and its other subsidiaries, cloud computing services, data hosting and other data services to enterprise customers. SAVVIS Holdings also provides interexchange and international private line data transmission services, such as transmission service between data centers, to its data hosting and cloud-computing customers. SAVVIS' managed private network services include virtual private network, hosting area network, and private channel bandwidth services. SAVVIS Holdings states that it owns no U.S. or overseas telecommunications facilities, but provides transmission through a combination of leased fiber.

CenturyLink, a Louisiana corporation, is a widely-held, publicly traded holding company that conducts its business operations principally through wholly owned subsidiaries offering a variety of communications services, including local and long-distance voice, wholesale local network access, high-speed Internet, and information, entertainment and fiber transport services through copper and fiber networks, to consumers and business in 37 states.² CenturyLink provides interstate and international

ITC-T/C-20110519-00142 and ITC-T/C-20110519-00143. Applicants also filed an application for the transfer of a business radio license. Any action on this section 214 application is without prejudice to Commission action on other related, pending applications. Applicants filed supplements to their original application on June 2, 2011.

long-distance telecommunications services on a non-dominant basis to customers throughout the United States. CenturyLink operates a national fiber transport system covering approximately 190,000 route miles, over which the company provides wholesale and retail fiber-based transport services. In certain service territories, CenturyLink provides additional communications and information services to enterprise customers, including data hosting.

Applicants propose that, pursuant to an Agreement and Plan of Merger entered into as of April 26, 2011, by CenturyLink, Mimi Acquisition Company (MergerSub) and SAVVIS Holdings, MergerSub will be merged with and into SAVVIS Holdings on the closing date, whereby SAVVIS Holdings will emerge as the surviving entity and as a wholly owned subsidiary of CenturyLink. MergerSub, a Delaware corporation formed for the purpose of effectuating the proposed transaction, is a direct, wholly owned subsidiary of CenturyLink. The directors of MergerSub, appointed by CenturyLink, will become the directors of SAVVIS Holdings following the merger. SAVVIS will remain a subsidiary of SAVVIS Holdings and CenturyLink will remain a widely held corporation with no party holding a ten percent or greater ownership interest.

Applicants state that the proposed transaction will allow both CenturyLink and SAVVIS to expand their service offerings. Specifically, Applicants maintain that linking SAVVIS' experience with cloud computing and managed hosting to CenturyLink's scale and scope will provide benefits that could not be achieved but for the merger. Applicants assert that the proposed transaction will not harm consumers or competition, and that after consummation of the proposed transaction, they will remain non-dominant in the international telecommunications market.
