## **NOTICE OF REQUEST BY ADDITIONAL OFFICES OF STATE ATTORNEYS GENERAL TO REVIEW SUBMISSIONS IN DOCKET NO. 11-65 THAT CONTAIN NRUF AND LNP DATA**

**CC Docket No. 99-200**  
**CC Docket No. 95-116**  
**WT Docket No. 11-65**

On April 28, 2011, and June 3, 2011, subject to a protective order, the Commission placed into the record in WT Docket No. 11-65 (Applications of AT&T Inc. and Deutsche Telekom AG For Consent To Assign or Transfer Control of Licenses and Authorizations) various Numbering Resource Utilization and Forecast (“NRUF”) reports filed by wireless telecommunications carriers and disaggregated, carrier-specific local number portability (“LNP”) data related to wireless telecommunications carriers.<sup>1</sup> Pursuant to the protective order, outside persons participating or intending to participate in Docket No. 11-65 who are not involved in competitive decision-making activities and who have signed the Acknowledgment of Confidentiality attached to the protective order may review and use the NRUF and LNP data “solely for the preparation and conduct of [Docket No. 11-65] before the Commission.”<sup>2</sup>

The protective order further provides that if a state department or agency, among others, issues a subpoena for or orders the production of NRUF or LNP data or information derived from NRUF and LNP data (“NRUF/LNP Confidential Information”) that a person has received pursuant to the protective order, the person receiving such an order must notify all affected parties and the Commission, such that “the Commission and each affected Wireless Telecommunications Carrier has a full opportunity to oppose such production prior to the production or disclosure of any NRUF/LNP Confidential Information.”

Pursuant to this provision, on June 28, 2011, Sprint Nextel Corp. (“Sprint”) notified the Commission that it had received civil investigation demands (“CIDs”) from various states seeking full,

unredacted copies of all materials Sprint has filed (or will file) with the Commission in WTB Docket No. 11-65, and that those materials contained NRUF/LNP Confidential Information.<sup>3</sup>

The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).<sup>4</sup> Nonetheless, when the public interest has so required, the Commission has provided access to that data to persons not involved in competitive decision-making subject to a protective order requiring that the data be used solely for the purpose of participating in the relevant proceeding before the Commission and that the data and information derived from the data not be made public.<sup>5</sup> The Commission has also provided NRUF and LNP data to the United States Department of Justice for the Department's use in antitrust investigations upon assurances from the Department that the material will be kept confidential and used for only legitimate enforcement purposes.<sup>6</sup>

On July 13, 2011, the Commission released a Public Notice notifying all wireless carriers that the Offices of Attorney General of four states – New York, Pennsylvania, Texas and Washington – were seeking from several parties copies of unredacted materials filed in this proceeding and that some of those materials contained confidential information derived from NRUF and LNP data.<sup>7</sup>

The Commission has since received letters from the Offices of Attorney General in six other states – Arizona, California, Hawaii, Illinois, Kansas, and Minnesota – seeking similar access in connection with their investigations of AT&T's proposed acquisition of T-Mobile USA. The letters state that it is the Offices' policy to keep this information confidential. The Offices of the Attorney General of California, Kansas and Minnesota state that the Offices will not disclose the information unless it is required by law or is necessary to further a legitimate law enforcement purpose; and the Offices of the
