Both of the Region 3 Public Safety RPC meetings are open to the public. All eligible public safety providers in Region 3 may utilize these frequencies. To ensure that RPC meetings consider each agency's future spectrum needs in the allocation process, it is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal be represented. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 3 should plan to attend. For further information, please contact:
