WIRELESS TELECOMMUNICATIONS BUREAU SEEKS COMMENT ON REQUEST TO EXTEND THE SUBSTANTIAL SERVICE DEADLINE FOR EDUCATIONAL BROADBAND SERVICE LICENSEES TO NOVEMBER 1, 2011

WT Docket No. 11-22

Comment Date: February 22, 2011

Reply Comment Date: March 1, 2011

On February 9, 2011, the National EBS Association (“NEBSA”) and the Catholic Television Network (“CTN”) filed a request for waiver of Section 27.14(o) of the Commission’s Rules to extend the deadline for Educational Broadband Service (“EBS”) licensees to demonstrate substantial service from May 1, 2011 to November 1, 2011.¹ NEBSA and CTN are the primary representative organizations for the EBS community.²

On July 29, 2004, the Commission released a *Report and Order and Further Notice of Proposed Rulemaking (BRS/EBS R&O)* that revamped the band plan and the rules and policies governing the licensing of the EBS and Broadband Radio Services (“BRS”) in the 2500-2690 MHz band.³ In that proceeding, the Commission suspended construction deadlines then applicable to licensees in the band,⁴ and established a plan to transition EBS and BRS licensees to their new channel locations.⁵ The transition of the 2500-2690 MHz band is now nearly completed.⁶

In 2006, the Commission replaced the suspended construction deadlines with a requirement that all BRS and EBS licensees demonstrate substantial service by May 1, 2011.⁷ The purpose behind the

⁷ See Amendment of Parts 1, 21, 73, 74 and 101 of the Commission’s Rules to Facilitate the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150-2162 and 2500-2690 MHz Bands,

requirement is to “ensure prompt delivery of service to rural areas, . . . prevent stockpiling or warehousing of spectrum by licensees or permittees, and . . . promote investment in and rapid deployment of new technologies and services.”⁸

NEBSA and CTN state that although they anticipate that many EBS licensees will submit their substantial service showings by May 1, 2011, a brief extension of the substantial service deadline is requested because in some areas of the country, primarily non-urban areas, EBS facilities are not yet fully constructed or operational.⁹ NEBSA and CTN state that in some cases, commercial operators have deployed the EBS radio portion of a network, but connectivity to the Internet is delayed by unexpected delays or difficulties in obtaining equipment or timely securing T1 or other backhaul services from other providers.¹⁰ In other cases, local permitting delays have reportedly hampered cell siting efforts.¹¹ NEBSA and CTN claim that in other cases, systems have recently been or soon will be made operational, but there will not be enough time for licensees to fully implement their educational use plans.¹² Clearwire, a *de facto* lessee of a significant portion of EBS spectrum, supports the request.¹³

Accordingly, we seek comment on the request to extend the deadline for EBS licensees to demonstrate substantial service from May 1, 2011 to November 1, 2011. We invite comment on whether an extension is appropriate, and, if so, whether the six month extension requested by NEBSA and CTN is the appropriate length.
