**CITATION**

**ILLEGAL MARKETING OF UNAUTHORIZED RADIOFREQUENCY DEVICES**

**Adopted:** January 4, 2011

**Released:** January 5, 2011

By the District Director, Detroit Office, Northeast Region, Enforcement Bureau:

**I. INTRODUCTION**

1. This is an official **CITATION** issued pursuant to Section 503(b)(5) of the Communications Act of 1934, as amended (“Communications Act”),<sup>1</sup> to Doctor Radio’s CB Shop (“Doctor Radio”) for marketing unauthorized radio frequency devices in the United States in violation of Section 302(b) of the Communications Act,<sup>2</sup> and Section 2.803(a)(1) of the Commission’s rules (“Rules”).<sup>3</sup>

2. Doctor Radio should take immediate steps to come into compliance and to avoid any recurrence of this misconduct. As explained below and as provided in the Communications Act, future violations of the Rules in this regard may subject your company to substantial monetary penalties, seizure of equipment, and criminal sanctions.

**II. BACKGROUND**

3. On October 20, 2010, an agent from the Enforcement Bureau’s Detroit Office (“Detroit Office”) visited the Doctor Radio store located at 1255 N. Dixie Highway, Monroe, Michigan, and observed that the store offered for sale the Cobra Sound Tracker and the Cobra 150 GTL DX. A store employee explained to the agent that the Cobra Sound Tracker, a Citizens Band (“CB”) transceiver, was modified to operate with 170 watts of power. The store employee further explained that the Cobra 150 GTL DX was an amateur radio that could operate on CB frequencies.

<sup>2</sup> 47 U.S.C. § 302a(b).

<sup>3</sup> 47 C.F.R. § 2.803(a)(1).

### III. APPLICABLE LAW AND VIOLATIONS

4. Section 302(b) of the Communications Act provides that “[n]o person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section.”<sup>4</sup>

5. Section 2.803(a)(1) of the Commission’s implementing regulations provides that “no person shall sell or lease, or offer for sale or lease (including advertising for sale or lease), or import, ship, or distribute for the purpose of selling or leasing or offering for sale or lease, any radio frequency device unless: [i]n the case of a device subject to certification, such device has been authorized by the Commission in accordance with the rules in this chapter and is properly identified and labeled....”<sup>5</sup>

6. Radio transceivers used in the CB radio service must be certified by the FCC prior to marketing. Internal modifications to a certificated CB transmitter are not allowed and will void a CB transceiver’s certification.<sup>6</sup> The Cobra Sound Tracker offered for sale to the agent was modified to allow an output power that far exceeded the power level permissible under 47 C.F.R. § 95.410. Such modification voided the transceiver’s certification and therefore cannot be sold in the United States.

7. Dual use CB and amateur radios may not be certificated under the Commission’s rules. Section 95.655(a) of the rules specifically states: “...([CB] Transmitters with frequency capability for the Amateur Radio Services...will not be certificated).”<sup>7</sup> Accordingly, such devices cannot legally be imported or marketed in the United States.<sup>8</sup> The Cobra 150 GTL DX offered for sale at Doctor Radio had both CB and amateur radio capability and therefore cannot be sold in the United States.

### IV. FUTURE COMPLIANCE

8. If, after receipt of this Citation, Doctor Radio violates the Communications Act or the Rules by engaging in conduct of the type described herein, the Commission may impose monetary forfeitures of up to \$16,000 for each such violation or each day of a continuing violation and up to \$112,500 for any single act or failure to act.<sup>9</sup> In addition, violations of the Communications Act or the Rules can result in seizure of equipment through *in rem* forfeiture actions, as well as criminal sanctions, including imprisonment.<sup>10</sup>

9. Doctor Radio may respond to this Citation within thirty (30) days after the release date of this Citation either through (1) a personal interview at the closest FCC office, or (2) a written statement. Any written statements should specify what actions have been taken by Doctor Radio to ensure that it
