COMMENTS INVITED ON APPLICATION OF AT&T SERVICES INC. ON BEHALF OF AT&T CORP. TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES

WC Docket No. 12-178
Comp. Pol. File No. 1044

Comments Due: July 12, 2012

Section 214 Application

Applicant: AT&T Services Inc. on behalf of AT&T Corp.

On **June 6, 2012**, **AT&T Services Inc.** (AT&T or Applicant) filed an application with the Federal Communications Commission (FCC or Commission) on behalf of its affiliate, **AT&T Corp.**, located at **One AT&T Way, Bedminster, NJ 07921**, requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue a certain domestic telecommunications service in Arizona, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Illinois, Indiana, Maryland, Massachusetts, Michigan, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Texas, Utah, Virginia, Washington, West Virginia and Wisconsin (collectively Service Areas).¹

AT&T indicates that AT&T Corp. currently offers AT&T Local Private Line (TCG) (formerly Teleport Communications Service) – Dedicated Entrance Facility service (DEF service) in the Service Areas. AT&T describes DEF service as a custom channelized SONET facility service that allows customers to consolidate multiple point-to-point services at a customer premise. AT&T indicates that DEF service is offered at bandwidth levels of OC-3, OC-12, OC-48 and OC-192. AT&T states, however, that this service has been replaced in the market by Ethernet services offered by AT&T and other service providers, and that AT&T Corp. plans to discontinue DEF service as a result of the declining market demand. AT&T specifies that AT&T Corp. plans to no longer offer the service to new customers or to allow existing customers to order new DEF service or request network changes to their existing configuration on or after August 1, 2012, subject to Commission authorization. AT&T clarifies that, upon expiration of existing contracts, AT&T Corp. will continue to provide the service to existing customers on a month-to-month basis until it discontinues DEF service entirely, which is currently planned for April 30, 2017. AT&T maintains that the public convenience and necessity should not be impaired by the proposed discontinuance because of the declining market demand and the availability of replacement services in the marketplace from AT&T and other service providers. AT&T indicates that it

¹ The application was subsequently received in the Competition Policy Division of the Wireline Competition Bureau on June 25, 2012.

notified affected customers of the proposed discontinuance by letters sent via U.S. mail on June 4, 2012. AT&T states that AT&T Corp. offers DEF service pursuant to non-dominant regulation.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies AT&T that the grant will not be automatically effective. In the application and customer notices, AT&T indicates that AT&T Corp. plans to discontinue offering DEF service to new customers and to no longer allow existing customers to order new DEF service or request network changes to their existing configuration in the Service Areas on or after August 1, 2012, subject to Commission authorization. AT&T explains that, upon expiration of existing contracts, AT&T Corp. will continue to provide this service to existing customers on a month-to-month basis until it discontinues DEF service entirely, which is currently planned for April 30, 2017. Accordingly, pursuant to section 63.71(c) and the terms of AT&T's application and notices, absent further Commission action, AT&T Corp. may cease to offer the affected service to new customers and may restrict new orders and changes to service for existing customers in the Service Areas on or after **August 1, 2012**, in accordance with AT&T's filed representations. In addition, pursuant to section 63.71(c) and the terms of AT&T's application and notices, absent further Commission action, AT&T Corp. may discontinue the affected service in the Service Areas on or after April 30, 2017, in accordance with AT&T's filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **July 12, 2012**. Such comments should refer to **WC Docket No. 12-178 and Comp. Pol. File No. 1044**.
