Notes: This attachment provides a summary of the list of eligible census blocks. Due to the large number of eligible blocks, the complete list will be provided in electronic format only, available as separate "Attachment A" files at <http://wireless.fcc.gov/auctions/901/>.

As described in this Public Notice, eligible census blocks will be aggregated for bidding by census tract, except in Alaska, where bidding will be on individual eligible census blocks. Furthermore, for tracts that contain some eligible blocks that are in a Tribal land and other eligible blocks that are not in a Tribal land, there will be separate aggregations of the Tribal blocks and the non-Tribal blocks. These aggregations result in 14,245 biddable geographic areas (also referred to as "biddable items").

The District of Columbia does not have any eligible blocks.

* The four U.S. territories included above are American Samoa (AS), the Commonwealth of the Northern Mariana Islands (MP), Guam (GU), and Puerto Rico (PR). The U.S. Virgin Islands is not included because it does not have any eligible blocks. When this data was compiled, the U.S. Census Bureau had not yet released 2010 Census block-level population data for any of the territories except Puerto Rico. Consequently, the population of the eligible blocks in territories without 2010 Census block-level data is listed above as n/a.
