II. BACKGROUND

2. In the 2003 *Hearing Aid Compatibility Order*, the Commission adopted several measures to enhance the ability of consumers with hearing loss to access digital wireless telecommunications.³ The Commission established technical standards for radio frequency interference (the M rating) and inductive coupling (the T rating)⁴ that digital wireless handsets

² Letter from Kathryn S. Berthot, Chief, Spectrum Enforcement Division, FCC Enforcement Bureau, to Robert W. Dunn, Director of Regulatory Affairs, TelAlaska Cellular, Inc. (Sept. 10, 2010) (on file in EB-10-SE-124).

³ The Commission adopted these requirements for digital wireless telephones under the authority of the Hearing Aid Compatibility Act of 1988, codified at Section 710(b)(2)(C) of the Communications Act of 1934, as amended (Act), 47 U.S.C. § 610(b)(2)(C). See *Section 68.4(a) of the Commission’s Rules Governing Hearing Aid-Compatible Telephones*, Report and Order, 18 FCC Rcd 16753, 16787, para. 89 (2003); Erratum, 18 FCC Rcd 18047 (2003) (*Hearing Aid Compatibility Order*); Order on Reconsideration and Further Notice of Proposed Rulemaking, 20 FCC Rcd 11221 (2005).

⁴ As subsequently amended, Section 20.19(b)(1) provides that, for the period beginning June 6, 2008 and ending December 31, 2009, a newly certified wireless handset is deemed hearing aid-compatible for radio frequency interference if, at minimum, it meets the M3 rating associated with the technical standard set forth in either the standard document “American National Standard Methods of Measurement of Compatibility between Wireless Communication Devices and Hearing Aids,” ANSI C63.19-2006 (June 12, 2006) or ANSI C63.19-2007 (June 8, 2007). Beginning January 1, 2010, a newly certified handset must meet at least an M3 rating under ANSI C63.19-2007 to be considered hearing aid-compatible for radio frequency interference. 47 C.F.R. § 20.19(b)(1). Section 20.19(b)(2) provides that, for the period beginning June 6, 2008 and ending December 31, 2009, a newly certified wireless handset is deemed hearing aid-compatible for inductive coupling if, at minimum, it meets the T3 rating associated with the

must meet to be considered compatible with hearing aids operating in acoustic coupling and inductive coupling (telecoil) modes, respectively. For each of these standards, the Commission further established deadlines by which manufacturers and service providers were required to offer specified numbers or percentages of digital wireless handsets per air interface⁵ that are compliant with the relevant standard.⁶ In February 2008, as part of a comprehensive reconsideration of the effectiveness of the Hearing Aid Compatibility Rules, the Commission released an order that, among other things, adopted new compatible handset deployment benchmarks beginning in 2008.⁷

3. On January 14, 2010, TelAlaska submitted its annual hearing aid compatibility status report for the January 1, 2009 to December 31, 2009 reporting period (2009 Report).⁸ On August 12, 2010, the Wireless Telecommunications Bureau referred TelAlaska's apparent hearing aid-compatible handset deployment violations to the Bureau's Spectrum Enforcement Division (Division) for investigation and possible enforcement action. On September 9, 2010, the Division issued a letter of inquiry (LOI) to TelAlaska, which directed the company to submit a sworn written response to a series of questions related to its compliance with the Hearing Aid Compatibility Rules.⁹

technical standard as set forth in ANSI C63.19-2006 or ANSI C63.19-2007, and beginning January 1, 2010, it is deemed hearing aid-compatible for inductive coupling if it meets at least a T3 rating under ANSI C63.19-2007. 47 C.F.R. § 20.19(b)(2). Grants of certification issued before June 6, 2008, under previous versions of ANSI C63.19 remain valid for hearing aid compatibility purposes. A recently adopted further amendment to Section 20.19(b) of the Rules will permit manufacturers to test handsets for hearing aid compatibility using the 2011 version of the ANSI standard (ANSI C63.19-2011) as an alternative to ANSI C63.19-2007. *See Amendment of the Commission's Rules Governing Hearing Aid-Compatible Mobile Handsets*, Third Report and Order, 27 FCC Rcd 3732 (WTB/OET 2012).

⁵ The term "air interface" refers to the technical protocol that ensures compatibility between mobile radio service equipment, such as handsets, and the service provider's base stations. Currently, the leading air interfaces include Code Division Multiple Access (CDMA), Global System for Mobile Communications (GSM), Integrated Digital Enhanced Network (iDEN), and Wideband Code Division Multiple Access (WCDMA) a/k/a Universal Mobile Telecommunications System (UMTS).

⁶ *See Hearing Aid Compatibility Order*, 18 FCC Rcd at 16780, para. 65; 47 C.F.R. § 20.19(c), (d).

⁷ *See Amendment of the Commission's Rules Governing Hearing Aid-Compatible Mobile Handsets*, First Report and Order, 23 FCC Rcd 3406 (2008) (*Hearing Aid Compatibility First Report and Order*), Order on Reconsideration and Erratum, 23 FCC Rcd 7249 (2008). These handset deployment requirements do not apply to service providers and manufacturers that meet the *de minimis* exception. The *de minimis* exception provides that manufacturers or mobile service providers that offer two or fewer digital wireless handset models per air interface are exempt from the hearing aid compatibility requirements, and manufacturers or service providers that offer three digital wireless handset models per air interface must offer at least one compliant model. 47 C.F.R. § 20.19(e). Effective September 10, 2012, the *de minimis* exception will not be available to manufacturers or mobile service providers that do not meet the definition of a "small entity" beginning two years after their initial offerings. *Id.* § 20.19(e)(1)(ii); *see also Amendment of the Commission's Rules Governing Hearing Aid-Compatible Mobile Handsets*, Policy Statement and Second Report and Order and Further Notice of Proposed Rulemaking, 25 FCC Rcd 11167, 11180–89, paras. 35–59 (2010).

4. TelAlaska responded to the LOI on September 28, 2010.¹⁰ In its LOI Response, TelAlaska states that it commenced offering service in August 2009 and that as of December 2009 the company provided service to a total of 546 subscribers in six remote rural Alaska communities.¹¹ In addition, TelAlaska reports that it discovered its apparent violation of the hearing aid-compatible handset deployment requirements prior to the filing of its 2009 Report, that it immediately initiated efforts to correct those apparent violations, and that the company became compliant with these requirements prior to the Bureau's initiation of the Investigation.¹² The Bureau and TelAlaska entered into tolling agreements to toll the statute of limitations.¹³

In express reliance on the covenants and representations in this Consent Decree and to avoid further expenditure of public resources, the Bureau agrees to terminate the Investigation. In consideration for the termination of the Investigation, TelAlaska agrees to the terms, conditions, and procedures contained herein. The Bureau further agrees that in the absence of new material evidence, the Bureau will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute on its own motion any new proceeding, formal or informal, or take any action on its own motion against TelAlaska concerning the matters that were the subject of the Investigation. The Bureau also agrees that in the absence of new material evidence it will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute on its own motion any proceeding, formal or informal, or take any action on its own motion against TelAlaska with respect to TelAlaska's basic qualifications, including its character qualifications, to be a Commission licensee or to hold Commission licenses or authorizations.

TelAlaska also shall develop a Compliance Checklist that describes the steps that a Covered Employee must follow to ensure that the inclusion of a new handset model, or discontinuance of an existing handset model offering, will not result in a violation of the Commission's digital wireless hearing aid-compatible handset deployment requirements. At a minimum, the Compliance Checklist shall require Covered Employees to verify the hearing aid compatibility rating of each existing and proposed handset model offering using the Commission's equipment authorization database.
- (b) **Compliance Manual.** Within sixty (60) calendar days after the Effective Date, the Compliance Officer shall develop and distribute a Compliance Manual to all Covered Employees. The Compliance Manual shall explain the Hearing Aid Compatibility Rules and set forth the Operating Procedures that Covered Employees shall follow to help ensure TelAlaska's compliance with the Hearing Aid Compatibility Rules.
