comprehensive system in place to check for duplicative federal Lifeline support that is at least as robust as the processes adopted by the Commission and that covers all ETCs in the state.<sup>5</sup> The certification must itemize with particularity each functionality of the state's system that corresponds to the federal rules.<sup>6</sup> If the Bureau does not act on a certification within 90 days of filing, it will be automatically granted.<sup>7</sup> ETCs operating in the states whose certifications have been granted by the Bureau are not required to comply with the rules and obligations with respect to the national database.<sup>8</sup>

On October 11, 2012, the Bureau released a public notice providing guidance to states regarding the opt-out certification process.<sup>9</sup> In that public notice, the Bureau also provided a waiver of the deadline to file opt-out certifications until December 1, 2012.<sup>10</sup> California, Texas, Vermont, Oregon and Puerto Rico filed opt-out certifications on or before December 1, 2012.<sup>11</sup> In order to facilitate review of the state certifications by the Bureau and public, the Bureau now seeks comment on these state certifications.
