EMERGENCY ACCESS ADVISORY COMMITTEE ANNOUNCEMENT OF JANUARY 11, 2013 MEETING

Committee Focusing on Matters Pertaining to Next Generation 9-1-1 Access for Persons with Disabilities

On December 7, 2010, Chairman Julius Genachowski announced the establishment and appointment of members and Co-Chairpersons of the Emergency Access Advisory Committee (EAAC),¹ an advisory committee required by the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA).²

The next meeting of the EAAC will be held at the Federal Communications Commission (FCC or Commission) headquarters, 445 12th St., SW, Commission Meeting Room, Washington, DC, on Friday, January 11, 2013 from 10:30 a.m. to 3:30 p.m. (EST). All meetings are open to the public.

EAAC MISSION

The purpose of the EAAC is to determine the most effective and efficient technologies and methods by which to enable access to Next Generation 911 (NG 9-1-1) emergency services by individuals with disabilities,³ and to make recommendations to the Commission on how to achieve those effective and efficient technologies and methods.⁴ During the spring of 2011, the EAAC conducted a nationwide survey of individuals with disabilities and released a report on that survey on June 21, 2011.⁵ Following release of the survey report, the EAAC developed recommendations, which it submitted to the Commission on December 7, 2011, as required by the CVAA.⁶ The agenda for the January 2013 EAAC meeting will include discussion of final reports from the EAAC subcommittees and other activities needed to ensure access to 911 by individuals with disabilities.
