March 9, 2012

**THE FEDERAL COMMUNICATIONS COMMISSION'S  
EMERGENCY ACCESS ADVISORY COMMITTEE  
TO SPONSOR AN EXHIBITION FAIR OF  
"TEXT-TO-911" TECHNOLOGIES AND APPLICATIONS  
MARCH 28 & 29, 2012**

By this Public Notice, the Federal Communications Commission's (Commission) Emergency Access Advisory Committee (EAAC) provides further detail about the Exhibition Fair of "text-to-9-1-1" mobile solutions previously announced on February 23, 2012.<sup>1</sup> Specifically, the Exhibition Fair will be open to the public during the hours of 2:00 p.m. to 7:00 p.m. on Wednesday, March 28, 2012, and from 10:00 a.m. to 4:00 p.m. on Thursday, March 29, 2012. Exhibits will be displayed in the Commission's Technology Experience Center, Room TW-B505, located at the Commission's headquarters at 445 12<sup>th</sup> Street, S.W., in Washington, D.C.

The EAAC is an advisory committee required by the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA).<sup>2</sup> Its purpose is to determine the most effective and efficient technologies and methods by which to enable access to Next Generation 911 (NG911) emergency services by individuals with disabilities,<sup>3</sup> and to make recommendations to the Commission on how to achieve those effective and efficient technologies and methods.<sup>4</sup> During the spring of 2011, the EAAC conducted a nationwide survey of individuals with disabilities and released a report on that survey on June 21, 2011.<sup>5</sup> Following release of the survey report, the EAAC developed recommendations, which it submitted to the Commission on December 7, 2011, as required by the CVAA.<sup>6</sup> One of these recommendations covers "text-to-911" mobile solutions that can be rapidly deployed to provide nationwide access to 9-1-1 services to people with disabilities during the transition to NG911.<sup>7</sup> The Exhibition Fair furthers this stated objective.
