DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

WC Docket No. 12-104
Comp. Pol. File No. 1036

Comments Due: May 29, 2012

Section 214 Application

Applicant: AT&T Services Inc. on behalf of BellSouth Telecommunications, LLC d/b/a AT&T Southeast

On **April 13, 2012**, **AT&T Services Inc.** (AT&T or Applicant) filed an application with the Federal Communications Commission (FCC or Commission) on behalf of its affiliate, **BellSouth Telecommunications, LLC d/b/a AT&T Southeast** (AT&T Southeast), located at **2180 Lake Boulevard, 2B32, Atlanta, Georgia 30319**, requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue a certain domestic telecommunications service in AT&T Southeast's service territory in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee (collectively Service Areas).¹

AT&T indicates that AT&T Southeast currently offers OC-24 SMARTRing service in the Service Areas. AT&T explains that OC-24 SMARTRing service is a dedicated, high capacity, network service that is deployed in a self-healing ring architecture between multiple customer designated locations and AT&T central offices. AT&T specifies that the service provides the customer with the bandwidth equivalent of twenty-four DS3 capacity. AT&T states, however, that there is a low market demand for the service and that AT&T Southeast currently does not have any customers that subscribe to the service. AT&T indicates that AT&T Southeast plans to discontinue the service in the Service Areas on or after June 29, 2012, subject to Commission approval. AT&T maintains that the public convenience and necessity will not be impaired by the proposed discontinuance because AT&T Southeast will continue to offer SMARTRing service at a variety of other bandwidth capacities including OC-3, OC-12, OC-48 and OC-192. AT&T indicates that AT&T Southeast offers OC-24 SMARTRing service pursuant to dominant carrier regulation.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the 60th day after the release date of this public notice, unless the

¹ AT&T's application was subsequently received in the Competition Policy Division of the Wireline Competition Bureau on April 16, 2012.

Commission notifies AT&T that the grant will not be automatically effective. In the application, AT&T indicates that AT&T Southeast plans to discontinue OC-24 SMARTRing service in the Service Areas on or after June 29, 2012, subject to Commission approval. Accordingly, pursuant to section 63.71(c) and the terms of AT&T's application, absent further Commission action, AT&T Southeast may discontinue OC-24 SMARTRing service in the Service Areas on or after **June 29, 2012**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **May 29, 2012**. Such comments should refer to **WC Docket No. 12-104 and Comp. Pol. File No. 1036**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service.
