WIRELESS TELECOMMUNICATIONS BUREAU AND PUBLIC SAFETY AND HOMELAND SECURITY BUREAU SEEK COMMENT ON NEW YORK CITY TRANSIT AUTHORITY REQUEST FOR WAIVER OF THE JANUARY 1, 2013 VHF-UHF NARROWBANDING DEADLINE

WT Docket 99-87

Comment Date: June 11, 2012

Reply Comment Date: June 21, 2012

By this *Public Notice*, comment is sought on the request, filed on December 22, 2011,¹ of the New York City Transit Authority (NYCTA) for a temporary waiver of the Commission's January 1, 2013 VHF-UHF narrowbanding deadline, which requires private land mobile radio (PLMR) licensees in the 150-174 MHz and 450-512 MHz bands to operate using channel bandwidth of no more than 12.5 kHz or equivalent efficiency by January 1, 2013.² NYCTA seeks a 42-month extension of the deadline, until June 30, 2016, for PLMR Stations KA34484, KB81204, KB81205, KEM727, KG9550, KGL738, KGL739, KGL741, KJ3732, KLE770, KLE772, KLO237, KQT915, KSZ887, KTA917, KTA918, KTA919, KTA920, KTA927, KTA928, WNGI988, WNGX515, WNGX516, WNGZ991, WNHI787, WNSA945, WNZK581, and WPEM901.

NYCTA, the nation's largest provider of mass transit services, operates a subway and bus transportation network in New York City. It requests a waiver of the narrowbanding deadline only with respect to communications equipment deployed on its subway system. NYCTA's rapid transit network operates at all hours, and typically makes more than 8,000 scheduled trips and transports more than 4.5 million customers each workday. The rapid transit operations communications system

¹ See Request for Waiver of Commission Rules (filed Jan. 27, 2012). The request was entered into the docket for WT 99-87 on January 27, 2012. The request previously was placed on public notice, but the instant *Public Notice* provides additional information for interested parties. See Public Safety and Homeland Security Bureau Seeks Comment on Requests for Waiver of the January 1, 2013 VHF-UHF Narrowbanding Deadline, *Public Notice*, WT Docket No. 99-87, 27 FCC Rcd 430 (PSHSB 2012).

² See 47 C.F.R. § 90.209(b)(5); see also Implementation of Sections 309(j) and 337 of the Communications Act of 1934 as Amended; Promotion of Spectrum Efficient Technologies on Certain Part 90 Frequencies, *Third Memorandum Opinion and Order and Third Further Notice of Proposed Rule Making and Order*, WT Docket No. 99-87, RM-9332, 19 FCC Rcd 25045 (2004). On April 26, 2012, the Wireless Telecommunications Bureau, Public Safety and Homeland Security Bureau, and Office of Engineering and Technology waived the January 1, 2013 narrowbanding deadline for 470-512 MHz band frequencies. See Implementation of Sections 309(j) and 337 of the Communications Act of 1934 as Amended; Promotion of Spectrum Efficient Technologies on Certain Part 90 Frequencies, *Order*, WT Docket No. 99-87, RM-9332, DA 12-642 (WTB/PSHSB/OET rel. Apr. 26, 2012).

consists of 119 radio sites, of which 83 are underground and 36 are outdoors. Because channels are reused at multiple locations, however, the system occupies only 23 discrete VHF frequencies, of which 16 are former Railroad Radio Service frequencies.

NYCTA's compliance with the Commission's narrowbanding deadline requires it to replace all radio equipment and devices in the subway radio system. In 2003, it began an extensive, multi-year program to modernize and upgrade the system, which included procuring approximately 15,000 portable handheld radio devices that are capable of operating in narrowband mode. NYCTA states that its narrowbanding efforts have been complicated by actions beyond its control that delayed the awarding of the contract to complete the narrowband transition. It requests a 42-month extension, until June 30, 2016, to replace and reprogram radio base stations and related site equipment throughout the subway system. NYCTA states that work related to above-ground transmitter sites will be completed first (by August 31, 2014), so that outdoor radio transmissions will be in narrowband mode as soon as possible in order to minimize potential interference to other licensees.

We seek comments evaluating the waiver request in light of the July 13, 2011 *Public Notice* providing guidance on the submission of requests for waiver of the narrowband deadline.³ In particular, we seek comment from parties whose operations could be impacted by grant of the waiver.
