WT DOCKET NO. 13-56

AT&T Inc. (“AT&T”), through its indirect and wholly-owned subsidiaries AT&T Mobility Spectrum LLC and New Cingular Wireless PCS, LLC, Cellco Partnership d/b/a Verizon Wireless (“Verizon Wireless”), Grain Spectrum, LLC, and Grain Spectrum II, LLC (collectively, Grain Spectrum and Grain Spectrum II are “Grain”, and AT&T, Verizon Wireless, and Grain collectively the “Applicants”) have filed applications (collectively, “Applications”) pursuant to Section 310(d) of the Communications Act of 1934, as amended,¹ seeking consent to the assignment and lease of various licenses. Pursuant to the proposed transaction, Verizon Wireless would assign to AT&T Lower 700 MHz Band B Block licenses, and AT&T would assign to Verizon Wireless AWS-1 licenses.² Also, Grain would acquire Lower 700 MHz Band B Block licenses and lease the spectrum to AT&T, as well as acquire AWS-1 licenses and lease the spectrum to Verizon Wireless. On March 5, 2013, the Commission accepted the Applications for filing and established a pleading cycle for the proposed transaction.³

In connection with the Commission’s review of the proposed transaction, the Commission intends to examine information contained in the biannual Numbering Resource Utilization and Forecast (“NRUF”) reports filed by wireless telecommunications carriers,⁴ carrier-specific local number portability (“LNP”) data related to wireless telecommunications carriers, and further disaggregated monthly carrier-specific local number portability data (“Carrier-to-Carrier LNP Data”) related to wireless telecommunications carriers. These data may assist the Commission in assessing the competitive effects

³ AT&T Inc., Cellco Partnership d/b/a Verizon Wireless, Grain Spectrum, LLC, and Grain Spectrum II, LLC Seek FCC Consent to the Assignment of Advanced Wireless Services and Lower 700 MHz Band B Block Licenses and Long-Term *De Facto* Transfer Spectrum Leasing Arrangements Involving Advanced Wireless Services and Lower 700 MHz Band B Block Licenses, *Public Notice*, DA 13-354 (WTB rel. Mar. 5, 2013).

of the transaction. Accordingly, subject to the provisions of a protective order (“NRUF Protective Order”) being adopted this day,⁵ the Commission intends to place into the record in this proceeding:

- NRUF reports for all wireless telecommunications carriers concerning data as of December 31, 2010, June 30, 2011, December 31, 2011, June 30, 2012, and December 31, 2012.
- Wireless-to-wireless LNP data for all wireless telecommunications carriers from the December 2010, June 2011, December 2011, June 2012, and December 2012 LNP databases that the Commission receives from the LNP Administrator, NeuStar, Inc. This LNP data shows the total number of ports in and ports out per carrier.
- Wireless-to-wireless Carrier-to-Carrier LNP Data for all wireless telecommunications carriers, on a monthly basis, from the December 2010 to December 2012 LNP databases that the Commission receives from the LNP Administrator, NeuStar, Inc. This LNP data shows, on a monthly basis, the specific number of ports from each wireless carrier to another carrier in each area.

Section 251 of the Communications Act grants the Commission jurisdiction over the North American Numbering Plan (“NANP”) and related telephone numbering issues.⁶ To monitor better the way numbering resources are used within the NANP and allocate NANP resources efficiently, the Commission requires telecommunications carriers to provide the Commission with a utilization report of their current inventory of telephone numbers and a five-year forecast of their numbering resource requirements.⁷ LNP data are collected by the LNP Administrator and provided to the Commission.

The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).⁸ The NRUF and LNP reports will be placed into the record subject to the provisions of the NRUF Protective Order. As such, the NRUF and LNP data will not be available to the public except pursuant to the terms of the NRUF Protective Order, as outlined below.

Persons seeking to review the NRUF or LNP data may do so only for purposes of participating in this proceeding. Pursuant to the NRUF Protective Order, outside persons participating or intending to participate in the proceeding who are not involved in competitive decision-making activities and who have signed the Acknowledgment of Confidentiality attached to the NRUF Protective Order may review the NRUF and LNP data. We emphasize that persons seeking to review the NRUF or LNP data must have adequate protections in place to prevent improper use or disclosure of the information.

Affected parties have until **June 20, 2013** to oppose disclosure of their NRUF and LNP data. In addition, affected parties will have five business days after the filing of an Acknowledgment of Confidentiality to object to the release of the data to a particular person who requests permission to review it.

If the Commission receives no opposition from affected parties by June 20, 2013, the Commission will place the NRUF, LNP, and Carrier-to-Carrier LNP data into the record subject to the
