COMMENTS INVITED ON APPLICATION OF SIGNAL POINT CORP. TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES

WC Docket No. 13-151
Comp. Pol. File No. 1113

Comments Due: August 16, 2013

Section 214 Application **Applicant: Signal Point Corp.**

On May 31, 2013, **Signal Point Corp.** (Signal Point or Applicant), located at **175 Great Road, Suite 1, Bedford, MA 01730**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in all fifty states and the District of Columbia (collectively, Service Areas).¹ With amendments filed on June 12, 2013 and June 26, 2013, Signal Point corrected certain deficiencies in its application and updated the record regarding notice to customers and state entities.² Accordingly, Signal Point's application is deemed complete as of June 26, 2013. On July 24, 2013, Signal Point also filed in order to update the record regarding its red light status.³

Signal Point indicates that it currently provides wholesale interconnected Direct-Inward-Dial services (DID Services or Affected Services) to approximately 100 wholesale business customers using resold services of other providers in the Service Areas. According to Signal Point, however, these service offerings constitute a stagnant, small line of business for Signal Point that is no longer the principal focus of its larger business objectives. Signal Point explains that it is no longer economically viable for it to serve the wholesale DID market because of shrinking profitability and higher costs of administration. Consequently, Signal Point states that it plans to discontinue the Affected Services in the Service Areas on June 30, 2013, or as soon thereafter as the necessary regulatory approvals can be obtained. Signal Point maintains that, as an alternative, current customers will be able to turn to other providers such as

¹ The Competition Policy Division of the Wireline Competition Bureau subsequently received the filed application on June 3, 2013.

² See Section 63.71 Application Supplement, WC Docket No. 13-151 (filed June 12, 2013); Letter from Michael S. Tenore, Signal Point Communications, to Ms. Marlene H. Dortch, Secretary, Federal Communications Commission (filed June 26, 2013).

³ See Letter from Michael S. Tenore, Signal Point Communications, to Ms. Marlene H. Dortch, Secretary, Federal Communications Commission (filed July 24, 2013) (asserting that Signal Point recently paid certain invoices that were the cause for its red light status). Signal Point's application initially was determined to be in red light status, but it has since completed payment of outstanding debts, and its red light status subsequently was cleared.

Level 3 Communications, Bandwidth.com and other similar companies which provide competitive DID services and products. Signal Point indicates that written notice of the proposed discontinuance was sent to affected customers via first class U.S. Mail on May 29, 2013 and May 30, 2013. Signal Point adds that copies of the notice were also sent to affected customers by electronic mail. Signal Point states that it is considered non-dominant with respect to the services to be discontinued.

In accordance with section 63.71(c) of the Commission's rules, Signal Point's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies Signal Point that the grant will not be automatically effective. In its application, Signal Point indicates that it plans to discontinue its DID Services in the Service Areas on June 30, 2013, or as soon thereafter as the necessary regulatory approvals can be obtained. Accordingly, pursuant to section 63.71(c) and the terms of Signal Point's application, absent further Commission action, Signal Point may discontinue the Affected Services in the Service Areas on or after **September 1, 2013**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **August 16, 2013**. Such comments should refer to **WC Docket No. 13-151 and Comp. Pol. File No. 1113**.
