WIRELESS TELECOMMUNICATIONS BUREAU OPENS DOCKET TO SEEK COMMENT ON DISH NETWORK CORPORATION'S PETITION FOR WAIVER AND REQUEST FOR EXTENSION OF TIME

WT Docket No. 13-225

Comment Date: September 30, 2013

Reply Date: October 10, 2013

On September 9, 2013, the DISH Network Corporation, on behalf of its wholly-owned subsidiaries, Gamma Acquisition L.L.C. and New DBSD Satellite Services G.P. (collectively, "DISH"), filed a Petition for Waiver and a Request for Extension of Time ("DISH Request") with the Wireless Telecommunications Bureau ("Bureau").¹ Specifically, DISH requests waiver of certain technical rules for the 2 GHz band at 2000-2020 MHz and 2180-2200 MHz ("AWS-4 band") to permit operational flexibility to use the lower AWS-4 block, 2000-2020 MHz, currently designated as an uplink band, for either uplink or downlink operations.² In addition, DISH requests an extension of the final build-out requirement for each of the AWS-4 licenses.³ The purpose of this public notice is to announce the opening of a docket, WT Docket No. 13-225, to seek comment on DISH's request and to establish the *ex parte* status of discussions related to the Petition for Waiver and Request for Extension of Time.

DISH, which is also the Mobile Satellite Service licensee in the 2000-2020 and 2180-2200 MHz bands, asserts that "[g]rant of the requested flexibility will serve and promote the underlying objectives of the Commission's AWS-4 rules by enabling DISH to utilize all of the AWS-4 spectrum more robustly

¹ DISH filed its pleading as an attachment in the Universal Licensing System (ULS) to all of the AWS-4 licenses held by its wholly-owned subsidiaries, Gamma Acquisition L.L.C. (Call Signs T060430001 - T060430176) and New DBSD Satellite Services G.P. (Call Signs T070272001 - T070272176).

² Pursuant to Sections 1.3 and 1.925(b)(3)(i) of the Commission's rules, DISH seeks a waiver of Section 27.5(j), which sets forth pairing requirements for AWS-4, and Section 27.53(h)(2)(ii), which imposes out-of-band emission limits for AWS-4 operations in the 2000-2020 MHz band, as well as other technical AWS-4 rules "to the extent required." DISH Request at 2 & n.2, 6 & n.11, 9-12. See 47 C.F.R. §§ 27.5(j), 27.53(h)(2)(ii); see also Service Rules for Advanced Wireless Services in the 2000-2020 MHz and 2180-2200 MHz Bands, WT Docket Nos. 12-70, 04-356, ET Docket No. 10-142, *Report and Order and Order of Proposed Modification*, 27 FCC Rcd 16102 (2012) (*AWS-4 Report and Order*), recon. pending.

³ Pursuant to Section 1.946(e) of the Commission's rules, DISH requests a one-year extension of the final construction requirement set forth for AWS-4 licenses in Section 27.14(q). See 47 C.F.R. § 27.14(q).

and by improving the extent to which the AWS-4 band coexists with future licensees in the adjacent H and J Blocks.”⁴ DISH further states that grant of such operational flexibility will permit AWS-4 operations in the 2000-2020 MHz block to be harmonized with operations in the adjacent PCS band, and H and J Blocks, thus potentially providing up to 30 megahertz of contiguous downlink spectrum.⁵ If the requested relief is granted, DISH commits to file, “as soon as commercially practicable but no later than 30 months after the grant of [its] petition . . . an election with the Commission stating whether it will deploy the 2000-2020 MHz band for downlink or uplink use.”⁶

With regard to its request for extension, DISH asserts that a one-year extension of the final build-out requirement for AWS-4 is “necessary for DISH to update its network and device planning to accommodate the requested flexibility.”⁷ Among other things, DISH states that it will need to “initiate work for a new standard from the 3rd Generation Partnership Project (“3GPP”)[,] . . . restart work to design devices and base stations, and make substantial changes to its network planning.”⁸

Procedural Matters

To allow the Commission to consider fully all substantive issues regarding the DISH request in as timely and efficient a manner as possible, commenters should raise all issues in their initial filings. New issues may not be raised in responses or replies.⁹ A party or interested person seeking to raise a new issue after the pleading cycle has closed must show good cause why it was not possible for it to have raised the issue previously. Submissions after the pleading cycle has closed that seek to raise new issues based on new facts or newly discovered facts should be filed within 15 days after such facts are discovered. Absent such a showing of good cause, any issues not timely raised may be disregarded by the Commission.

This matter shall be treated as a “permit-but-disclose” proceeding in accordance with the *ex parte* rules.¹⁰ Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or
