WIRELINE COMPETITION BUREAU SEEKS UPDATES AND CORRECTIONS TO TELCOMASTER TABLE FOR CONNECT AMERICA COST MODEL

WC Docket No. 10-90

Comment Date: March 14, 2013

The Wireline Competition Bureau (Bureau) hereby seeks comment to confirm the attribution of price cap carrier operating company wire centers to particular holding companies for purposes of Connect America Phase II implementation.

The USF/ICC Transformation Order adopted a framework for providing ongoing support to areas served by price cap carriers, including areas where broadband-capable infrastructure does not exist, known as Connect America Phase II.1 As a part of this framework, the Commission directed the Bureau to develop a forward-looking model to “estimate the cost of a modern voice and broadband capable network.”2 The Bureau has sought public input on the design of the forward-looking cost model,3 and on January 17, 2013, the Bureau announced the release of Connect America Cost Model version two (CACM v2.0) that allows Commission staff and interested parties to calculate costs based on a series of inputs and assumptions for Connect America Phase II implementation.4

---

Today, the Bureau solicits public input on an updated version of the TelcoMaster table that will be used in a subsequent version of CACM. CACM reflects the assigned serving wire center boundaries and subsequent state totals based on the boundary designations for each serving wire center. The TelcoMaster table provides the holding company name associated with the serving wire centers for the entire nation and lists the following data:

- Service Area
- State
- Operating Company Number
- Company Name
- Study Area Code
- Study Area Name
- Rate-of-Return or Price Cap – Connect America-Specific

We seek comment on whether any adjustments should be made to the TelcoMaster table data for the price cap carrier wire centers. Typically, does the TelcoMaster table identify the correct holding company ownership of the listed price cap carrier wire centers?

There are also several Alaskan wire centers where the holding company is unknown and the company name is listed as “UnderStudyforCorrection.” Which holding companies should be associated with these wire centers? To the extent carriers or other parties identify any errors or omissions in the TelcoMaster table data, please provide correct information.

Parties who have signed the Third Supplemental Protective Order may view the TelcoMaster table by accessing the model at http://www.fcc.gov/encyclopedia/caf-phase-ii-models, and visiting the Posted Data Sets.

**Initial Regulatory Flexibility Certification.** As required by the Regulatory Flexibility Act of 1980, as amended (RFA), the Bureau prepared an Initial Regulatory Flexibility Analysis (IRFA), included as part of the Model Design Public Notice, of the possible significant economic impact on a substantial number of small entities by the policies and rules proposed in these Public Notices and the information posted online in the Virtual Workshops. We have reviewed the IRFA and have determined
