NOTICE OF APPARENT LIABILITY FOR FORFEITURE

Adopted: November 12, 2013

Released: November 12, 2013

By the District Director, Philadelphia Office, Northeast Region, Enforcement Bureau:

I. INTRODUCTION

1. In this Notice of Apparent Liability for Forfeiture (NAL), we find that Lakewood Transportation, LLC (Lakewood), Lakewood, New Jersey, apparently willfully and repeatedly violated Section 301 of the Communications Act of 1934 (Act) and Section 1.903(a)–(b) of Commission’s rules (Rules)¹ by operating radio communications equipment on an unauthorized frequency. We conclude that Lakewood is apparently liable for a forfeiture in the amount of six thousand dollars (\$6,000).

II. BACKGROUND

2. On April 14, 2011, agents of the Enforcement Bureau’s Philadelphia Office (Philadelphia Office) inspected radio transmitting equipment operated by Lakewood at 111 Clifton Avenue, Unit 5, Lakewood, New Jersey (Lakewood Business Office). Lakewood operates a taxicab business and the radio transmitting equipment was used for dispatching taxicabs. The agents found that Lakewood was operating the radio transmitting equipment on the frequency 159.675 MHz without a license. On April 18, 2011, the Philadelphia Office issued a Notice of Unlicensed Operation (NOUO) to Lakewood for operating on 159.675 MHz without a license.²

3. On May 19, 2011, the Philadelphia Office received a response to the NOUO from Clasene Joseph, the sole owner of Lakewood, stating that he had applied for a license to operate a Private Land Mobile Radio Station for Lakewood’s radio dispatch service.³ On June 20, 2011, the Commission issued a Private Land Mobile Radio Station license (Call Sign WQNW564) authorizing Mr. Joseph to operate radio transmitting equipment on the frequency 160.0575 MHz in Lakewood, New Jersey. No further enforcement action was taken against Mr. Joseph or Lakewood with regard to the unlicensed operation on 159.675 MHz.

4. On March 1, 2013, in response to a complaint of unauthorized transmissions on 159.675 MHz in the Lakewood, New Jersey area, agents monitored transmissions on the frequency 159.675 MHz and, using radio direction finding techniques, determined that the transmissions were emanating from the Lakewood Business Office. The agents inspected the radio transmitting equipment at the Lakewood

Business Office in the presence of Lakewood's dispatcher and confirmed that Lakewood was operating its dispatch service, which included a base station and mobile radios, on the frequency 159.675 MHz. The agent checked the FCC database and confirmed that neither Lakewood nor its owner, Clasene Joseph, has a license to operate on 159.675 MHz. Before the agents departed the Lakewood Business Office, the dispatch service was reprogrammed to operate on 160.0575 MHz, the frequency authorized under Mr. Joseph's license for Station WQNW564.

III. DISCUSSION

5. Section 503(b) of the Act provides that any person who willfully or repeatedly fails to comply substantially with the terms and conditions of any license, or willfully or repeatedly fails to comply with any of the provisions of the Act or of any rule, regulation, or order issued by the Commission thereunder, shall be liable for a forfeiture penalty.⁴ Section 312(f)(1) of the Act defines "willful" as the "conscious and deliberate commission or omission of [any] act, irrespective of any intent to violate" the law.⁵ The legislative history to Section 312(f)(1) of the Act clarifies that this definition of willful applies to both Sections 312 and 503(b) of the Act,⁶ and the Commission has so interpreted the term in the Section 503(b) context.⁷ The Commission may also assess a forfeiture for violations that are merely repeated, and not willful.⁸ The term "repeated" means the commission or omission of such act more than once or for more than one day.⁹

A. Operation on an Unauthorized Frequency

6. The evidence in this case is sufficient to establish that Lakewood violated Section 301 of the Act and Section 1.903(a)–(b) of the Rules. Section 301 of the Act states that no person shall use or operate any apparatus for the transmission of energy or communications or signals by radio within the United States, except under and in accordance with the Act and with a license issued by the Commission.¹⁰ Section 1.903(a) of the Rules requires that stations in the Wireless Radio Services must be used and operated only in accordance with the rules applicable to their particular service and with a valid authorization granted by the Commission.¹¹ In addition, Section 1.903(b) provides that the holding of an

No. 97-765, 97th Cong. 2d Sess. 51 (1982) ("This provision [inserted in Section 312] defines the terms 'willful' and 'repeated' for purposes of section 312, and for any other relevant section of the act (e.g., Section 503) As defined[,] . . . 'willful' means that the licensee knew that he was doing the act in question, regardless of whether there was an intent to violate the law. 'Repeated' means more than once, or where the act is continuous, for more than one day. Whether an act is considered to be 'continuous' would depend upon the circumstances in each case. The definitions are intended primarily to clarify the language in Sections 312 and 503, and are consistent with the Commission's application of those terms").

⁹ Section 312(f)(2) of the Act, 47 U.S.C. § 312(f)(2), which also applies to violations for which forfeitures are assessed under Section 503(b) of the Act, provides that "[t]he term 'repeated', when used with reference to the commission or omission of any act, means the commission or omission of such act more than once or, if such commission or omission is continuous, for more than one day." See *Callais Cablevision, Inc.*, 16 FCC Rcd at 1362, para. 9.

authorization does not create any rights beyond the terms, conditions, and period specified in the authorization.¹² During the inspection on March 1, 2013, agents found that Lakewood operated its base station and mobile units on the frequency 159.675 MHz without a license. The license for Station WQNW564 that Mr. Joseph obtained for Lakewood's dispatch service only authorized operation on the frequency 160.0575 MHz. Therefore, based on the evidence before us, we find that Lakewood apparently willfully and repeatedly violated Section 301 of the Act and Section 1.903(a)–(b) of the Rules by operating its radio transmitting equipment on an unauthorized frequency.

B. Proposed Forfeiture Amount

7. Pursuant to the Commission's *Forfeiture Policy Statement* and Section 1.80 of the Rules, the base forfeiture amount for using an unauthorized frequency is \$4,000.¹³ In assessing the monetary forfeiture amount, we must also take into account the statutory factors set forth in Section 503(b)(2)(E) of the Act, which include the nature, circumstances, extent, and gravity of the violations, and with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and other such matters as justice may require.¹⁴ Consequently, the base forfeiture amount is subject to adjustment. Lakewood was aware that it was permitted to operate only on an authorized frequency, as evidenced by the NOUO issued on April 18, 2011 and Lakewood's subsequent application for a license to operate on the frequency 160.0575 MHz. Thus, we find that an upward adjustment to the forfeiture amount of \$2,000 is warranted.¹⁵ Applying the *Forfeiture Policy Statement*, Section 1.80 of the Rules, and the statutory factors to the instant case, we conclude that Lakewood is apparently liable for a forfeiture in the amount of \$6,000.
