LLC D/B/A CENTURYLINK QCC TO DISCONTINUE DOMESTIC
TELECOMMUNICATIONS SERVICES**

WC Docket No. 13-266
Comp. Pol. File No. 1126

Comments Due: December 2, 2013

Section 214 Application

Applicant: Qwest Communications Company, LLC d/b/a CenturyLink QCC

On October 31, 2013, Qwest Communications Company, LLC d/b/a CenturyLink QCC (CenturyLink or Applicant), located at 100 CenturyLink Drive, Monroe, LA 71203, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in all 50 states, U.S. possessions and territories (collectively, Service Areas).¹

CenturyLink indicates that it currently offers QCC Frame Relay (FR) and QCC Asynchronous Transfer Mode (ATM) services in the Service Areas. CenturyLink describes QCC FR service as a connection-oriented packet-switched data service allowing for the interconnection of Local Area Networks (LAN) or other compatible customer equipment. CenturyLink explains that QCC ATM service is a connection-oriented multiplexing and switching service based on ATM cell-based switching technology. CenturyLink further explains that QCC ATM service uses fixed-length cells to support transmission of multiple types of traffic, such as data, voice and video, over a LAN or Wide Area Network. CenturyLink maintains that it currently has 160 customers for QCC FR and QCC ATM services.

The Applicant states, however, that in 2011 it was advised by equipment manufacturer Alcatel-Lucent that the equipment used for its QCC FR and QCC ATM services would no longer be manufactured as of December 31, 2011 and that all support would be discontinued as of December 31, 2014. CenturyLink asserts, therefore, that it plans to grandfather and eventually discontinue QCC FR and QCC ATM services in the Service Areas on December 15, 2013, or as soon thereafter as the necessary regulatory approvals can be obtained. CenturyLink submits that on or after that date, it will no longer offer these services to new customers or accept new orders from existing customers except to the extent that such orders are permitted by contract. CenturyLink clarifies that, on or after December 15, 2013, it plans to grandfather existing customers as follows: 1) existing contracts for these services will not be

renewed; 2) customers with a contract that expires prior to December 15, 2014 may retain their QCC FR and/or QCC ATM service covered by that contract on a month-to-month basis until December 15, 2014; and 3) customers with a contract that expires after December 15, 2014 may retain their QCC FR and/or QCC ATM service covered by that contract until the expiration of that contract. According to CenturyLink, customers have the option of moving to alternative CenturyLink services, such as IQ Networking Private Port Service, which uses the latest technology to create a robust VPN service. CenturyLink notes that customers can also turn to numerous other providers of similar services. CenturyLink submits that it sent notice to affected retail customers by U.S. Mail on October 23, 2013. CenturyLink represents that it sent notice to affected wholesale customers by email on October 25, 2013 and by U.S. Mail on October 30, 2013. CenturyLink indicates that it also sent notice by email on October 18, 2013 and by U.S. Mail on October 30, 2013 to federal government customers that receive service pursuant to the federal government's Networx contract. CenturyLink adds that it sent notice by email and U.S. Mail to its remaining federal government customers on October 28, 2013. The Applicant asserts that it is considered non-dominant with respect to the service to be discontinued, reduced or impaired.

In accordance with section 63.71(c) of the Commission's rules, CenturyLink's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies CenturyLink that the grant will not be automatically effective. In its application, CenturyLink indicates that it plans to grandfather and eventually discontinue QCC FR and QCC ATM services in the Service Areas on December 15, 2013, or as soon thereafter as the necessary regulatory approvals can be obtained. Accordingly, pursuant to section 63.71(c) and the terms of CenturyLink's application, absent further Commission action, CenturyLink may discontinue QCC FR and QCC ATM services in the Service Areas on or after **December 16, 2013**, in accordance with CenturyLink's filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.
