MOBILITY FUND PHASE I AUCTION GIS DATA OF AUCTION 901 RESULTS

AU Docket No. 12-25

1. By this Public Notice, the Wireless Telecommunications and Wireline Competition Bureaus (the Bureaus) announce the availability of a shapefile of the Auction 901 results. This data does not update or replace any of the previously-released data. Rather, it provides the same data in a geographic information system (GIS) format and thus just supplements the previously-released data files and interactive map. We are taking this step to make the data accessible to more people and to make it easier to use for individual analysis.

2. In the *Auction 901 Closing Public Notice*, the Bureaus announced the availability of Auction 901 results files and an interactive map that is a visual representation of data from the auction results files.¹ The GIS data we now make available is an additional format of the winning bids data as shown in the interactive map. This downloadable shapefile is available from the Auction 901 web page (<http://wireless.fcc.gov/auctions/901/>) via the “GIS Data” link at the bottom of the page.

3. The shapefile format is actually four individual files (.dbf, .shp, .shx, and .prj) all with the same prefix.² This format is generally recognized as a standard transfer file for GIS data, and it is an accepted transfer in just about every GIS software package.

4. For additional information about Auction 901 results you should consult the Auction 901 Closing Public Notice. Public notices and additional information about Auction 901 may be found at <http://wireless.fcc.gov/auctions/901/>.

5. For further information, contact Lisa Stover of the Auctions and Spectrum Access Division at (717) 338-2868. To request materials in accessible formats (Braille, large print, electronic files, audio format) for people with disabilities, send an e-mail to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418-0530 or (202) 418-0432 (TTY).
