Dear Mr. Estes:

On December 24, 2012, East Kentucky Power Cooperative, Inc. ("East Kentucky") filed a waiver request<sup>1</sup> to file late-filed applications<sup>2</sup> for renewal of license of Microwave/Industrial Business Pool Point to Point Microwave Stations KGI26, WPWE983, WPWE984, WPWE986, WPWE987, WPWE989, WPWE993, and WPWF646. Because East Kentucky filed its Renewal Applications more than thirty days after expiration, East Kentucky requests as part of its applications waiver of Section 1.949(a) of the Commission's Rules<sup>3</sup> to grant renewal of its late-filed Renewal Applications.<sup>4</sup> For the reasons stated below, we deny East Kentucky's Waiver Request and dismiss its late-filed Renewal Applications.

The license for Station KGI26 was last renewed on October 16, 2002, and expired on October 29, 2012.<sup>5</sup> The licenses for Stations WPWE983, WPWE984, WPWE986, WPWE987, WPWE989, and WPWE993 were issued on November 1, 2002 and expired on November 1, 2012.<sup>6</sup> The license for Station WPWF646 was issued on November 5, 2002 and expired on November 5, 2012.<sup>7</sup> Our records indicate that renewal reminder notices were sent to East Kentucky for each of these licenses on August 6, 2012 and August 13, 2012.<sup>8</sup> Section 1.949(a) of the Commission's Rules requires licensees to file renewal

applications no later than the expiration dates of the licenses.<sup>9</sup> East Kentucky failed to do so, not filing until December 24, 2012,<sup>10</sup> and requesting that Section 1.949(a) of the Commission's Rules be waived to allow acceptance of East Kentucky's late-filed Renewal Applications.<sup>11</sup>

East Kentucky states that it inadvertently failed to file the renewal in a timely manner because of a recordkeeping error.<sup>12</sup> In addition, it argues that granting a waiver would serve the public interest because the stations provide critical communications links necessary to maintain and safely operate important electrical power distribution facilities.<sup>13</sup>

The Commission's policy regarding reinstatement procedures in the Wireless Radio Services is as follows: Renewal applications that are filed up to thirty days after the expiration date of the license will be granted *nunc pro tunc* if the application is otherwise sufficient under the Commission's Rules, but the licensee may be subject to an enforcement action for untimely filing and unauthorized operation during the time between the expiration of the license and the untimely renewal filing.<sup>14</sup> Applicants who file renewal applications more than thirty days after the license expiration date may also request renewal of the license *nunc pro tunc*, but such requests will not be routinely granted, will be subject to stricter review, and also may be accompanied by enforcement action, including more significant fines or forfeitures.<sup>15</sup> In determining whether to reinstate a license, we consider all of the facts and circumstances, including the length of the delay in filing, the reasons for the failure to timely file, the potential consequences to the public if the license should terminate, and the performance record of the licensee.<sup>16</sup> Taking into account all the facts and circumstances of the instant matter, including the specific factors set forth by the Commission, we conclude that East Kentucky's Waiver Request should be denied.<sup>17</sup>

Under the Commission's rules, licensees must file renewal applications no later than the expiration date of the license for which renewal is sought.<sup>18</sup> In fact, licenses automatically terminate upon the expiration date, unless a timely application for renewal is filed.<sup>19</sup> Applicants may, however, file an application for renewal and request for waiver of the filing deadline if the renewal application is not filed in a timely manner. A waiver of the Commission's rules may be granted where the applicant

demonstrates that (1) the underlying purpose of the rule would not be served or would be in the public interest; or (2) in view of unique or unusual factual circumstances of the instant case, application of the rule would be inequitable, unduly burdensome or contrary to the public interest, or the applicant has no reasonable alternative.<sup>20</sup>

We do not believe that East Kentucky has satisfied either waiver prong. An inadvertent failure to renew a license in a timely manner is not so unique and unusual in itself as to warrant a waiver of the Commission's Rules.<sup>21</sup> Further, each licensee is solely responsible for knowing the terms of its license and submitting a renewal application to the Commission in a timely manner.<sup>22</sup> East Kentucky makes no showing that the underlying purpose of the rule would not be served or would be frustrated by application to East Kentucky in the instant case.

Furthermore, while we note that the stations in question provide critical communications links necessary to maintain and safely operate important electrical power distribution facilities,<sup>23</sup> the nature of those operations, by themselves, does not justify a waiver. If East Kentucky wishes to obtain new regular authorizations for these stations, it may file new, properly coordinated applications.<sup>24</sup> If it needs to continue operating the facilities in the meantime, it can seek special temporary authority (STA) pursuant to Section 1.931 of the Commission's Rules.<sup>25</sup> In view of the foregoing, we find that grant of East Kentucky's requested waiver is not in the public interest.
