**REQUEST FOR COMMENT ON PETITION FOR RULEMAKING FILED BY SORENSON COMMUNICATIONS, INC. REGARDING COST RECOVERY METHODOLOGY FOR INTERNET PROTOCOL CAPTIONED TELEPHONE SERVICE
CG Docket Nos. 13-24 and 03-123**

Comments: March 25, 2013

Reply Comments: April 4, 2013

By this Public Notice, the Consumer and Governmental Affairs Bureau seeks comment on a petition for rulemaking filed by Sorenson Communications, Inc. (Sorenson) and its wholly subsidiary, CaptionCall, LLC on February 20, 2013. In its petition for rulemaking, Sorenson requests that the Commission initiate a rulemaking proceeding to adopt a price cap regulatory approach to determine the rates for the provision of Internet Protocol Captioned Telephone Service (IP CTS).¹ The proposed methodology would replace the current Multistate Average Rate Structure (MARS) rate methodology currently used for determining the IP CTS rate.² Comments and reply comments should be filed in accord with the procedures outlined below.

In 2007, the Commission adopted a price cap methodology for Internet Protocol (IP) Relay, which requires that a base rate be set for a three year period, during which time the rate is increased annually by an inflation factor and adjusted downward by a factor that takes into account increased efficiencies.³ The price cap IP Relay rate is also subject to adjustments based on exogenous costs beyond the control of providers.⁴ Sorenson believes that this same approach should be used to determine the rate for IP CTS because a price cap regime would exert downward pressure to lower the IP CTS rate⁵ and give providers greater rate stability, incentivizing providers to offer service more efficiently and engage in greater innovation through investments

² The MARS plan is based on a weighted average of the *intrastate* TRS rates paid by the states. in new technologies.⁶ Sorenson requests that the Commission initiate a price cap rate at \$1.6766, which is an average of the 2008, 2009, and 2010 IP CTS rates.⁷ Sorenson explains that it has chosen these years because the IP CTS rate experienced greater increases in 2011 and 2012.⁸ We seek comment on Sorenson's petition for rulemaking and the petition's underlying proposals.

⁷ *Sorenson Petition* at 2. Sorenson notes that this would result in an immediate savings of nearly ten cents per minute over the current IP CTS rate. The IP CTS rates for 2008, 2009, and 2010 were \$1.629, \$1.6569, and \$1.6778, respectively.

⁸ *Sorenson Petition* at 4. In 2011, the IP CTS rate was \$1.7630, and in 2012, the rate was \$1.7730.

⁹ Pursuant to 1.3 of the Commission's rules, 47 C.F.R. § 1.3, we waive on our own motion section 1.405 of the rules, which calls for a 30 day comment period followed by a 15 day reply period. 47 C.F.R. § 1.405. We find good cause exists to waive the rule for the purpose of shortening the comment and reply comment periods so that the information and arguments contained in the comments and replies can be considered prior to the adoption of an anticipated additional Notice of Proposed Rulemaking on the matter of IP CTS reform. See *Misuse of Internet Protocol (IP) Captioned Telephone Service; Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket Nos. 13-24 and 03-123, Order and Notice of Proposed Rulemaking, 28 FCC Rcd 703, 732, ¶ 56 (2013).
