**Released: May 14, 2013**

By the Chief, Enforcement Bureau:

1. In this Order, we adopt the attached Consent Decree entered into between the Enforcement Bureau (Bureau) of the Federal Communications Commission (Commission) and FTTH Communications, LLC (FTTH). The Consent Decree resolves and terminates the Bureau's investigation into FTTH's compliance with Section 214 of the Communications Act of 1934, as amended (Act),<sup>1</sup> and Section 63.18 of the Commission's rules (Rules)<sup>2</sup> pertaining to authorization to provide facilities-based and resold international common carrier communications services.

2. A copy of the Consent Decree that the Bureau and FTTH negotiated is attached hereto and incorporated herein by reference.

3. After reviewing the terms of the Consent Decree and evaluating the facts before us, we find that the public interest would be served by adopting the Consent Decree and terminating the investigation.

## II. BACKGROUND

3. Section 214(a) of the Act prohibits any carrier from constructing, extending, acquiring, or operating any line, and from engaging in transmission through any such line, without first obtaining a certificate of authorization from the Commission.<sup>8</sup> While the Commission has granted “blanket” Section 214 authority to carriers providing domestic service,<sup>9</sup> meaning that such carriers need not apply to the Commission before providing domestic service, the Commission has not done the same for providers of international telecommunications services.<sup>10</sup> Section 63.18 of the Rules requires any carrier that seeks Section 214 authority “for provision of common carrier communication services between the United States, its territories or possessions, and a foreign point” to request such authority by application.<sup>11</sup> This

<sup>8</sup> 47 U.S.C. § 214(a).

<sup>9</sup> 47 C.F.R. § 63.01(a) (“Any party that would be a domestic interstate communications common carrier is authorized to provide domestic, interstate services to any domestic point and to construct or operate any domestic transmission line as long as it obtains all necessary authorizations from the Commission for use of radio frequencies.”).

<sup>10</sup> *See Implementation of Section 402(b)(2)(A) of the Telecomm. Act of 1996*, Report and Order in CC Docket No. 97-11, Second Memorandum Opinion & Order in AAD File No. 98-43, 14 FCC Rcd 11364, para. 2 & n.8 (1999) (grant of blanket authority is only for domestic service and does not extend to international service).

<sup>11</sup> 47 C.F.R. § 63.18.

application requirement applies to carriers that resell the international services of another authorized carrier, as well as to facilities-based international service providers.<sup>12</sup>

4. FTTH is a Minnesota limited liability company that provides telecommunications services.<sup>13</sup> FTTH is owned by Everest FTTH Acquisition, LLC (Everest), a Delaware limited liability company based in New Jersey.<sup>14</sup> In 2010, Everest acquired FTTH from Rudder Capital Corporation (Rudder), a Minnesota corporation.<sup>15</sup> During the course of the acquisition process, but prior to consummation of the transfer of control of FTTH from Rudder to Everest, Everest and FTTH discovered that FTTH had provided international telecommunications services to its customers in Minnesota without having obtained Commission authority to do so, as required by Section 214(a) of the Act and Section 63.18 of the Rules.<sup>16</sup> On January 29, 2010, FTTH filed an application with the Commission's International Bureau (IB) for authority to provide facilities-based and resale international telecommunications services.<sup>17</sup> On the same day, FTTH and Everest jointly filed applications with the Wireline Competition Bureau and IB for Special Temporary Authority (STA) that would permit FTTH to provide international Section 214 services and for the transfer of control of international Section 214 authority from FTTH to Everest.<sup>18</sup>

5. On February 2, 2010, IB granted an STA providing FTTH with international Section 214 authority. On that same day, IB granted an STA allowing the transfer of FTTH's international Section 214 authority from Rudder to Everest.<sup>19</sup> On March 5, 2010, IB granted FTTH's application for permanent authority to provide international Section 214 facilities-based and resale services, and the application for Rudder to transfer control of Section 214 authority held by FTTH to Everest.<sup>20</sup> IB granted FTTH international Section 214 authority "without prejudice to any enforcement action by the Commission for non-compliance" with the Act or the Rules.<sup>21</sup> Thereafter, the matter was referred to the Bureau, which

In consideration for the termination of said Investigation, FTTH agrees to the terms, conditions, and procedures contained herein. The Bureau further agrees that in the absence of new material evidence, the Bureau will not use the facts developed in this Investigation through the Effective Date, or the existence of this Consent Decree, to institute, on its own motion, any new proceeding, formal or informal, or take any action on its own motion against FTTH concerning the matter that was the subject of the Investigation. The Bureau also agrees that in the absence of new material evidence it will not use the facts developed in this Investigation through the Effective Date, or the existence of this Consent Decree, to institute on its own motion any proceeding, formal or informal, or take any action on its own motion against FTTH with respect to FTTH's basic qualifications, including its character qualifications, to be a Commission licensee or hold Commission authorizations.
