NOTICE OF APPARENT LIABILITY FOR FORFEITURE AND ORDER

Adopted: August 28, 2014

Released: August 28, 2014

By the District Director, Philadelphia Office, Northeast Region, Enforcement Bureau:

I. INTRODUCTION

1. We propose a penalty of \$6,400 against M.J. Phillips Communications, Inc. (Phillips) for apparently operating its studio-transmitter link (STL) from an unauthorized location in West Seneca, New York. Unauthorized operations undermine the Commission's radio licensing system and potentially cause interference to licensed communications. Although Phillips acknowledged that it operated the STL station from an unauthorized location, it continued to operate the station at variance from its license even after being warned by the Commission in writing that such action violated the law. This failure to come into compliance demonstrates an apparent disregard for the Commission's authority warranting an increased penalty. In addition, we direct Phillips to submit, no later than 30 calendar days from the release date of this Notice of Apparent Liability for Forfeiture and Order (NAL), a statement, signed under penalty of perjury, stating that its STL station is now operated in compliance with the Commission's rules and consistent with its license.

2. In this NAL, we find that Phillips, licensee of STL Station WHB714 in West Seneca, New York, apparently willfully and repeatedly violated Section 301 of the Communications Act of 1934, as amended (Act),¹ and Section 1.903(a) of the Commission's rules (Rules)² by operating Station WHB714 from a location other than its licensed location without prior Commission authorization.

II. BACKGROUND

3. On March 6 and March 7, 2013, agents from the Enforcement Bureau's Philadelphia Office (Philadelphia Office) conducted an inspection of Station WHB714 in response to a complaint of unauthorized operation. Agents used mobile direction finding techniques and determined that Station WHB714 was operating from 976-B Union Road, West Seneca, New York (Union Road Site).³ According to its authorization, however, the licensed location for Station WHB714 is 1224 Main Street, Niagara Falls,

¹ 47 U.S.C. § 301.

² 47 C.F.R. § 1.903(a).

³ The antenna for the STL Station was located on the rooftop of the building adjacent to the main studio at the coordinates 42-49-31.92 North Latitude / 078-45-16.55 West Longitude.

New York (Main Street Site), a distance of 24.3 miles from the Union Road Site.⁴ Agents also discovered that Station WHB714 was operating on frequency 947.0 MHz, instead of its authorized frequency of 947.5 MHz. On March 25, 2013, the Philadelphia Office issued a Notice of Violation (First NOV) to Phillips for operating Station WHB714 at an unauthorized location on an unauthorized frequency.⁵ In its response to the First NOV, Phillips acknowledged that it was operating Station WHB714 from an unauthorized location and frequency.⁶ Phillips stated that it had retuned Station WHB714 to operate on its authorized frequency and was in the process of applying for authority to operate Station WHB714 from the Union Road Site.⁷

4. On October 24, 2013, agents from the Philadelphia Office re-inspected Station WHB714 and found that it was still operating from the unauthorized Union Road Site.⁸ During the inspection, Phillips was unable to provide the agents with any evidence that it had sought authorization from the Commission to operate Station WHB714 from the Union Road Site. On November 27, 2013, the Philadelphia Office issued a second Notice of Violation (Second NOV) to Phillips for operating Station WHB714 at an unauthorized location.⁹ In its response to the Second NOV, Phillips acknowledged that it continued to operate Station WHB714 at an unauthorized location, stating that its counsel failed to file the necessary application for authority to operate from the Union Road Site.¹⁰

III. DISCUSSION

5. Section 503(b) of the Act provides that any person who willfully or repeatedly fails to comply substantially with the terms and conditions of any license, or willfully or repeatedly fails to comply with any of the provisions of the Act or of any rule, regulation, or order issued by the Commission thereunder, shall be liable for a forfeiture penalty.¹¹ Section 312(f)(1) of the Act defines “willful” as the “conscious and deliberate commission or omission of [any] act, irrespective of any intent to violate” the law.¹² The legislative history to Section 312(f)(1) of the Act clarifies that this definition of willful applies to both Sections 312 and 503(b) of the Act,¹³ and the Commission has so interpreted the term in the Section

¹³ H.R. Rep. No. 97-765, 97th Cong. 2d Sess. 51 (1982) (“This provision [inserted in Section 312] defines the terms ‘willful’ and ‘repeated’ for purposes of section 312, and for any other relevant section of the act (e.g., Section 503) As defined[,] . . . ‘willful’ means that the licensee knew that he was doing the act in question, regardless of whether there was an intent to violate the law. ‘Repeated’ means more than once, or where the act is continuous, for more than one day. Whether an act is considered to be ‘continuous’ would depend upon the circumstances in each

503(b) context.¹⁴ The Commission may also assess a forfeiture for violations that are merely repeated, and not willful.¹⁵ The term “repeated” means the commission or omission of such act more than once or for more than one day.¹⁶

A. Operation from an Unauthorized Location

6. The evidence in this case is sufficient to establish that Phillips violated Section 301 of the Act and Section 1.903(a) of the Rules. Section 301 of the Act prohibits the use or operation of any apparatus for the transmission of energy or communications or signals by radio within the United States, except under and in accordance with the Act and with a license granted under the provisions of the Act.¹⁷ In addition, Section 1.903(a) of the Rules requires that stations in the Wireless Radio Services, such as Station WHB714, must be used and operated only in accordance with the rules applicable to their particular service, and with a valid authorization granted by the Commission.¹⁸

7. On March 6 and March 7, 2013, Philadelphia Office agents found that Phillips was operating Station WHB714 from a site located approximately 24.3 miles from its authorized location. During a re-inspection on October 24, 2013, agents found that Phillips continued to operate Station WHB714 from the unauthorized Union Road Site. Based on the evidence before us, we find that Phillips apparently willfully and repeatedly violated Section 301 of the Act and Section 1.903(a) of the Rules by operating Station WHB714 from a location other than its licensed location without prior Commission authorization.

B. Proposed Forfeiture and Reporting Requirement

8. Pursuant to the Commission’s *Forfeiture Policy Statement* and Section 1.80 of the Rules, the base forfeiture amount for operating at an unauthorized location is \$4,000.¹⁹ In assessing the monetary forfeiture amount, we must also take into account the statutory factors set forth in Section 503(b)(2)(E) of the Act, which include the nature, circumstances, extent, and gravity of the violations, and with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and other such matters as justice may require.²⁰ As noted above, Phillips continued to operate its STL station at variance from its

case. The definitions are intended primarily to clarify the language in Sections 312 and 503, and are consistent with the Commission’s application of those terms . . .”).

¹⁶ Section 312(f)(2) of the Act, 47 U.S.C. § 312(f)(2), which also applies to violations for which forfeitures are assessed under Section 503(b) of the Act, provides that “[t]he term ‘repeated’, when used with reference to the commission or omission of any act, means the commission or omission of such act more than once or, if such commission or omission is continuous, for more than one day.” See *Callais Cablevision, Inc.*, 16 FCC Rcd at 1362, para. 9.

license even after being warned by the Commission in writing that such action violated the law.²¹ Although Phillips stated that it failed to apply for authority to operate Station WHB714 from a new location due to its counsel's oversight, we note that inadvertent mistakes are not mitigating circumstances that can serve to justify a forfeiture reduction.²² Even if Phillips did file for authorization to operate Station WHB714 from a new location following the inspections, corrective action taken to come into compliance with the Act and Rules is expected, and such corrective action does not nullify or mitigate prior violations or associated forfeiture liability.²³ A search of Commission records indicates that Phillips is still licensed to operate Station WHB714 from the Main Street Site and has not received authorization to operate from the Union Road Site or any other location. Phillips apparent failure to come into compliance despite being warned in writing by the Commission demonstrates an apparent disregard for the Commission's authority. Thus, we find that a \$2,400 upward adjustment to the forfeiture is warranted.²⁴ Applying the *Forfeiture Policy Statement*, Section 1.80 of the Rules, and the statutory factors to the instant case, we conclude that Phillips is apparently liable for a forfeiture in the amount of \$6,400.

9. We further order Phillips to submit a written statement, pursuant to Section 1.16 of the Rules,²⁵ signed under penalty of perjury by an officer or director of Phillips, stating that Station WHB714 is operating in compliance with Section 301 of the Act, Section 1.903(a), and its license, and detailing the specific actions taken by Phillips to come into compliance. The statement must be provided to the Philadelphia Office at the address listed in paragraph 12, below, within 30 calendar days of the release date of this NAL.
