ORDER

Adopted: August 29, 2014

Released: August 29, 2014

By the Chief, Mobility Division, Wireless Telecommunications Bureau:

1. In this Order, the Wireless Telecommunications Bureau (Bureau) addresses the requests filed by FCR, Inc. (FCR), PCS Partners, L.P. (PCSP), Helen Wong-Armijo (Wong-Armijo), Skybridge Spectrum Foundation (Skybridge), and Telesaurus Holdings GB, LLC (Telesaurus) for waiver of Section 90.155(d)¹ of the Commission's Rules and extension of time to meet the construction deadline for their respective 900 MHz Multilateration Location and Monitoring Service (M-LMS) Economic Area (EA) licenses.² For the reasons discussed below, we dismiss in part as moot the request of Telesaurus, grant in part and otherwise deny the requests for waiver of FCR, Wong-Armijo, PCSP, Skybridge and Telesaurus and hereby extend the M-LMS license construction deadline for FCR, Wong-Armijo, PCSP, Skybridge and Telesaurus (call sign WQGN602 only) as follows: 1) the mid-term construction deadline is extended until September 4, 2016 and 2) the end-of-term construction deadline is extended until September 4,

¹ 47 C.F.R. § 90.155(d). Under the M-LMS licensing rules, licensees must construct and operate a sufficient number of base stations to serve one-third and two-thirds of an EA's population within five and ten years of the initial license grant, respectively. *Id.* Alternatively, an M-LMS licensee may make a showing of substantial service for its license at the five- and ten-year benchmarks. *Id.* Under Commission rules, an M-LMS license will automatically terminate as of the construction deadline if the licensee fails to meet the construction requirement. *See* 47 C.F.R. §§ 1.946(c), 1.955(a)(2).

² *See, e.g.*, FCR, Inc. Request for Waiver and Extension of First Build-Out Deadline, *Attachment*, ULS File No. 0005288407 (filed July 13, 2012) (FCR Waiver Request); Helen Wong-Armijo Request for Waiver and Extension of First Build-Out Deadline, *Attachment*, ULS File No. 0005288533 (filed July 11, 2012) (Wong-Armijo Waiver Request); PCS Partners, L.P. Request for Extension of Time, *Attachment*, ULS File No. 0005299291 (filed July 13, 2012) (PCSP Waiver Request); Skybridge Spectrum Foundation Request for Extension of Time, *Attachment*, ULS File No. 0005315615 (filed July 18, 2012) (Skybridge Waiver Request); Telesaurus Holdings GB, LLC Request for Extension of Time, *Attachment*, ULS File No. 0005315744 (filed July 18, 2012) (Telesaurus Waiver Request). In July 2014, PCSP, Skybridge and Telesaurus filed separate requests seeking additional relief. *See e.g.*, PCS Partners Request for Waiver and Extension, *Attachment*, ULS File No. 0006384531 (filed July 18, 2014) (PCSP 2014 Waiver Request); Skybridge Waiver and Request for Extension of Time, *Attachment*, ULS File No. 0006385481 (filed July 18, 2014) (Skybridge 2014 Waiver Request); Telesaurus Further Supplement to Pending Extension Requests, Waiver and Request for Extension of Time, *Attachment*, ULS File No. 0006393307 (filed July 18, 2014) (Telesaurus 2014 Waiver Request).

2018.³ We will address in a separate order the requests for waiver and extension of time to construct filed by Progeny LMS, LLC (Progeny).⁴

I. BACKGROUND

2. *Location and Monitoring Service (LMS)*. In 1995, the Commission established LMS as a new service in the 902-928 MHz band, under a hierarchy of spectrum usage rights.⁵ Specifically, this band is allocated on a primary basis to both Federal radiolocation systems and Industrial, Scientific, and Medical (ISM) equipment.⁶ Federal fixed and mobile services are allocated on a secondary basis to Federal radiolocation systems and ISM equipment. LMS licenses are allocated on a secondary basis to Federal users and to ISM devices and may not cause interference to and must tolerate interference from these users and devices.⁷ Amateur radio operations are allocated on a secondary basis to LMS.⁸ Finally, unlicensed devices are authorized under Part 15 to use the 902-928 MHz band, but such devices are not afforded interference protection rights and may not cause harmful interference to LMS licensees, amateur operations, or other licensed systems.⁹

3. The Commission auctioned M-LMS licenses in 1999 and 2001 (Auctions 21 and 39).¹⁰ There were 528 licenses available at auction (176 EAs and three M-LMS blocks (A, B and C Blocks) per market). As a result of the two auctions and various secondary market spectrum disaggregation transactions, six entities currently hold a total of 614 M-LMS licenses.¹¹

³ See Amendment of the Commission's Part 90 Rules in the 904-909.75 and 919.75-928 MHz Bands, *Order*, 29 FCC Rcd 6361 (2014) (*M-LMS Termination Order*). The extended buildout deadlines reflect a two- and four-year extension of the mid-term and end-of-term deadlines, respectively, from the effective date of the *M-LMS Termination Order*. See attached Appendix A for licenses subject to this relief.

⁴ See, e.g., Progeny LMS, LLC Request for Waiver and Extension of Time, *Attachment*, ULS File No. 0005273654 (filed June 21, 2012) (Progeny Waiver Request); Progeny LMS, LLC Request for Extension of Time, *Attachment*, ULS File No. 0006383686 (filed July 17, 2014) (Progeny 2014 Waiver Request).

⁵ Amendment of Part 90 of the Commission's Rules to Adopt Regulations for Automatic Vehicle Monitoring Systems, *Report and Order*, 10 FCC Rcd 4695 (1995) (adopting rules encompassing the Automatic Vehicle Monitoring (AVM) service for which the Commission had adopted "interim" rules in 1974). M-LMS licensees are regulated under Part 90 of the Commission's rules, which generally governs radio communications systems licensed and used in the Public Safety, Industrial/Business Radio Pool, and Radiolocation Radio Services, and may provide any service consistent with the Commission's rules and the licensee's regulatory status. See 47 C.F.R. §§ 90.1, *et seq.*

⁶ 47 C.F.R. §§ 2.106, 18.301, 18.11(c).

⁷ 47 C.F.R. § 90.353(a).

⁸ 47 C.F.R. § 97.301.

⁹ See 47 C.F.R. § 90.361. Users of Part 15 devices conforming to specified technical conditions are insulated from claims that such devices cause harmful interference to M-LMS systems in the 902-928 MHz band. *Id.*

¹⁰ Location and Monitoring Service Auction Closes, Winning Bidders in the Auction of 528 Multilateration Licenses in the Location and Monitoring Service, *Public Notice*, 14 FCC Rcd 3754 (1999); Public Coast and Location and Monitoring Service Spectrum Auction Closes, Winning Bidders Announced, *Public Notice*, 16 FCC Rcd 12509 (2001).

¹¹ The Commission's Universal Licensing System (ULS) records indicate that Progeny holds 228 licenses; Wong-Armijo holds 84 licenses; PCSP holds 32 licenses; FCR holds 13 licenses; Skybridge holds 128 licenses; and Telesaurus holds 129 licenses. We note that Warren C. Havens holds a controlling interest in both Telesaurus and Skybridge, and that Skybridge's 128 licenses are the result of a disaggregation transaction from Telesaurus, resulting in Havens' controlled entities holding 257 total M-LMS licenses.

4. In 2003, Havens requested additional time to meet the five-year construction requirement. In 2004, the Bureau granted Havens three additional years to meet the five-year requirement.¹² In 2005, the Bureau granted FCR similar relief and, in 2006, the Bureau also granted Progeny relief.¹³ The Bureau granted relief based on lack of available equipment, the fact that the deadline in question was well in advance of the first renewal deadline, and the unique spectrum sharing requirements of the M-LMS band.¹⁴

5. On March 1, 2006, the Commission released a *Notice of Proposed Rulemaking*, initiating an examination of current rules that govern the M-LMS band.¹⁵ Specifically, the Commission sought comment on whether to modify restrictions designed to limit the scope of M-LMS services,¹⁶ power and other technical limitations,¹⁷ spectrum aggregation limit,¹⁸ “safe harbor” for secondary operations,¹⁹ and the requirement that M-LMS licensees demonstrate through actual field tests that their systems do not cause unacceptable levels of interference to Part 15 devices.²⁰

6. On May 1, 2008, and June 12, 2008, Progeny and PCSP each filed a request for extension of time to meet the five- and ten-year construction requirements.²¹ On November 26, 2008, the Bureau granted the requests and, on its own motion, granted additional time to each of the four other M-LMS licensees to meet the construction requirements.²² Specifically, the Bureau extended the five-year construction requirement to July 19, 2012 for licensees required to meet the mid-term requirement on or before July 19, 2012, and extended the end-of-term requirement to July 19, 2014, for any licensee required to meet that end-of-term requirement on or before July 19, 2014.²³ The Bureau noted that there was no commercially available equipment certified for M-LMS use in the 900 MHz band.²⁴ Further, the Bureau acknowledged that the pending M-LMS rulemaking, initiated in 2006, engendered regulatory uncertainty for M-LMS licensees that may have contributed to a lack of M-LMS equipment development

¹² Request of Warren C. Havens for Waiver of the Five-Year Construction Requirement for his Multilateration Location and Monitoring Service Economic Area Licenses, *Memorandum Opinion and Order*, 19 FCC Rcd 23742 (2004) (*Havens M-LMS Order*).

¹³ Request for Extension of Five-Year Construction Requirement, *Letter*, 20 FCC Rcd 4293 (2005) (*FCR Order*); Request of Progeny LMS, LLC for a Three-Year Extension of the Five-Year Construction Requirement for its Multilateration Location and Monitoring Services Economic Area Licenses, *Memorandum Opinion and Order*, 21 FCC Rcd 5928 (2006) (*Progeny Order*).

¹⁴ See *Havens M-LMS Order*, 19 FCC Rcd at 23744 ¶ 7; *FCR Letter*, 20 FCC Rcd at 4294; *Progeny Order*, 21 FCC Rcd at 5927-28 ¶¶ 12-13.

¹⁵ Amendment of the Commission's Part 90 Rules in the 904-909.75 and 919.75-928 MHz Bands, *Notice of Proposed Rulemaking*, 21 FCC Rcd 2809 (2006) (*M-LMS NPRM*).

²² Requests of Progeny LMS, LLC and PCS Partners, L.P. for Waiver of Multilateration Location and Monitoring Service Construction Rules, *Order*, 23 FCC Rcd 17250 (WTB 2008) (*M-LMS Extension Order*).

²³ See *id.* at 17250 ¶ 1.

²⁴ *Id.* at 17257 ¶ 22.

and service deployment.²⁵ The Bureau indicated its extension of the respective mid-term and end-of-term construction benchmarks afforded a reasonable amount of time to develop M-LMS operations.²⁶

7. *PCS Partners Extension Request.* On July 13, 2012, PCSP filed its request for extension of time to meet the mid-term construction deadline for its M-LMS licenses. Specifically, PCSP requests that the Commission extend the deadline until five years after final Commission action on the rule changes proposed in the *M-LMS NPRM*.²⁷ PCSP states that a waiver is needed because the factors the Bureau relied on in the *M-LMS Extension Order* remain materially unchanged.²⁸ PCSP states that “based on its continuing due diligence, it believes there has been no material change in the equipment market since the *M-LMS Extension Order* and there is no viable equipment that would permit it to satisfy its initial construction deadline.²⁹ PCSP further claims that regulatory uncertainty remains, affecting the equipment market, and that resolution of the pending rulemaking proceeding would bring certainty to the future of licensed operations in the 902-928 MHz band.³⁰

8. In its 2014 waiver request, PCSP requests a further extension of time to meet its mid-term and end-of-term construction benchmarks, until the later of July 18, 2019 and July 18, 2024, respectively; or (2) five years and ten years, respectively, after Commission action terminating the *M-LMS NPRM* becomes final.³¹ PCSP reiterates its arguments that a waiver grant is justified because regulatory uncertainty has inhibited the M-LMS band³² and equipment for M-LMS is not commercially available.³³ Further, PCSP states that termination of the *M-LMS NPRM* created additional uncertainty and the Commission failed to address the issues on the record.³⁴

9. *Telesaurus and Skybridge Extension Requests.* On July 18, 2012, Telesaurus and Skybridge each filed an extension request of the buildout deadlines for 257 M-LMS licenses covering 129 EA’s.³⁵ As a “Preferred Alternative,” Telesaurus and Skybridge seek an extension for both their first and second buildout deadlines until ten years after final Commission action on the *M-LMS NPRM*, or until December 31, 2022, if a date certain must be chosen.³⁶ Skybridge and Telesaurus state that if the

²⁵ *Id.* at 17257-58 ¶ 22. See *M-LMS NPRM*, 21 FCC Rcd 2809.

²⁶ *M-LMS Extension Order*, 23 FCC Rcd at 17260 ¶ 30.

²⁷ See PCSP Waiver Request at 6.

²⁸ *Id.* at 1.

²⁹ *Id.* at 3, 5.

³⁰ *Id.* at 3-6.

³¹ *Id.* at 1. PCSP also requests a waiver section 90.155(d), so that there is no obligation to satisfy a construction requirement prior to the end of the license term. *Id.*

³² See PCSP 2014 Waiver Request at 5-14.

³³ See *id.* at 14-17.

³⁴ See PCSP 2014 Waiver Request at 11; 13-14. PCSP also argues that the *M-LMS Termination Order* is procedurally defective because the Commission did not seek public comment before terminating the proceeding. *Id.* at 13. We note that under Commission rule 1.429, the appropriate vehicle for making such arguments is the filing of a Petition for Reconsideration of the Commission’s action terminating the M-LMS rulemaking proceeding. 47 C.F.R. § 1.429.

³⁵ While both the Skybridge and Telesaurus Waiver Request attachments seek extension of applicable mid-term and final construction deadlines, Skybridge and Telesaurus each filed a Form 601 in ULS seeking extension of the respective mid-term deadline only.

³⁶ See Skybridge Waiver Request at 2. Telesaurus and Skybridge note that for purposes of the extension request statement on Form 601, which requires a date certain, Applicants use a date based on its Preferred Alternative, assuming that the Commission has acted upon the *M-LMS NPRM* by the end of 2012. As a second alternative, Applicants seek an extension of the first buildout deadline until five years after final Commission action in the *M-*

(continued)

Preferred Alternative were granted, they would file a due diligence report five years after final action on the *M-LMS NPRM*.³⁷ Skybridge and Telesaurus describe their plans to use Long Term Evolution (LTE) for M-LMS by deploying a nationwide Intelligent Transportation System (ITS) in conjunction with licenses also held in the 35, 43, 217-220, and (non M-LMS) 900 MHz bands. Skybridge and Telesaurus claim that relief is warranted because: 1) they have demonstrated due diligence through investigating and developing standards-based technology and equipment and investigations, surveys, and development for nationwide construction operation of M-LMS systems for ITS; and 2) the factual circumstances the Bureau relied on in granting the *M-LMS Extension Order* remain essentially the same, including the lack of M-LMS equipment and the regulatory uncertainty created by the *M-LMS NPRM*.³⁸ Telesaurus states that it seeks identical relief sought by Skybridge if the FCC finds construction requirements apply to its licenses,³⁹ while arguing in the alternative that it does not have a construction obligation for its 129 M-LMS licenses as a result of: 1) the partial assignment of 128 licenses to Skybridge, where Skybridge assumed the construction responsibility for the licenses in an assignment consummated on November 9, 2007; and 2) Telesaurus' application filed July 18, 2012 seeking to disaggregate its license under call sign WQGN602, with Skybridge to assume the applicable construction responsibility.⁴⁰

10. On July 18, 2014, Telesaurus and Skybridge filed requests for waiver and extension of time for their end-of-term construction deadline, incorporating by reference the arguments in the Skybridge Waiver Request and Telesaurus Waiver Request as justification for further extending both deadlines.⁴¹ On July 24, 2014, Telesaurus and Skybridge jointly filed a supplement requesting that: 1) Telesaurus and Skybridge be included in blanket relief if the Bureau grants an extension to all M-LMS licensees based on the termination of the M-LMS proceeding (for example, five and ten years from the date the blanket extension is granted to meet the respective first and second buildout deadlines); and 2) Telesaurus and Skybridge be granted waiver relief regarding application of the population coverage benchmarks, safe harbor standards and substantial service compliance where multiple M-LMS licenses are involved.⁴²

11. *FCR and Wong-Armijo Waiver Requests.* On July 11, 2012, FCR and Wong-Armijo each filed a request seeking a five-year extension of the mid-term construction deadline until July 19, 2017. FCR seeks an extension for 13 M-LMS licenses covering 13 EA's. Wong-Armijo seeks an extension for 84 M-LMS licenses covering 60 EA's. FCR and Wong-Armijo both claim a waiver is needed as nothing has changed since November of 2008, when the Commission extended the build-out dates for all M-LMS

(Continued from previous page) _____
LMS NPRM, or if the Applicants must chose a date certain, five years from the last day of 2012 (*i.e.* December 31, 2017). Skybridge Waiver Request at 1-2. As a third alternative, Applicants request that the Commission grant whatever additional time it determines to be reasonable to meet the first and second buildout deadlines. *See id.* at 4.

³⁷ *Id.*

³⁸ Skybridge Waiver Request at 7.

³⁹ *See* Telesaurus Waiver Request at 1.

⁴⁰ *See* Telesaurus Waiver Request at 1. *See* Assignment Application from Telesaurus to Skybridge, ULS File No. 0003134330 (filed Aug. 9, 2007; consummated Nov. 9, 2007). *See* Assignment Application from Telesaurus to Skybridge, ULS File No. 0005315596 (filed July 18, 2012). Parties seeking authority to disaggregate spectrum must certify which of the parties will be responsible for meeting the construction requirements. *See* 47 C.F.R. § 90.365.

⁴¹ *See* Skybridge 2014 Waiver Request; Telesaurus 2014 Waiver Request.

⁴² *See e.g.*, Skybridge Supplement and Amendment to Requests for Extension of Time, *Attachment*, ULS File No. 0006393410 (Skybridge July 2014 Supplement) at 4. Skybridge/Telesaurus argue that if they cannot meet the standard set by the Commission for all licenses, they should be allowed to meet it for a lesser portion of their licenses. *See id.* Skybridge/Telesaurus reiterate arguments previously set forth in the Skybridge Waiver Request and Telesaurus Waiver Request as basis for grant. *See id.* at 7-8.

licenses, as there is still no nonproprietary, commercially available equipment, no M-LMS licensee provides a commercial service, the rules remain unchanged, and the *M-LMS NPRM* remains pending.⁴³

12. *Comments and Replies.* On July 17, 2012, the Bureau placed the FCR, Wong-Armijo, and PCSP waiver and extension requests on Public Notice for comment.⁴⁴ On August 16, 2012 the Bureau placed the Skybridge and Telesaurus requests on Public Notice.⁴⁵ Of the six commenting parties, only IEEE 802 directly opposes the Waiver Requests.⁴⁶ IEEE 802 argues that M-LMS is not a viable technology given the availability of other indoor location services, such as Global Positioning Service (GPS) and Wi-Fi™, and encourages the Commission to reject the requests.⁴⁷ In response to the July Public Notice, Skybridge and Telesaurus filed jointly, neither directly opposing nor supporting the other M-LMS licensees' requests, stating that M-LMS spectrum should be maintained for ITS and that the "IEEE 802 comments miss the point of ITS and the core nature of M-LMS."⁴⁸ In response to the August Public Notice, Skybridge and Telesaurus filed jointly, rebutting IEEE's claim that GPS has obviated the need for M-LMS, as GPS does not provide communications.⁴⁹

13. *M-LMS Termination Order.* On June 10, 2014, the Commission released an Order terminating the *M-LMS NPRM*,⁵⁰ concluding that the various proposals for broad revisions of the applicable rules do not merit further consideration at this time. The *M-LMS Termination Order* states that based on recent development in the M-LMS band, such as Progeny's ability to commence commercial operations,⁵¹ the Commission believes that the existing framework can provide M-LMS licensees with

⁵⁰ See generally *M-LMS Termination Order*.

⁵¹ In December 2011, the Bureau and the Office of Engineering and Technology (OET) jointly granted Progeny's request for a waiver of two technical rules, conditional on Progeny filing a field testing report prior to commencing commercial operation demonstrating that its M-LMS system would not cause unacceptable levels of interference to Part 15 devices that operate in the 902-928 MHz band. See Request by Progeny LMS, LLC for Waiver of Certain Multilateration Location and Monitoring Service Rules, *Order*, 26 FCC Rcd 16878 (WTB/OET 2011) (*Progeny Limited Waiver Order*). In June 2013, the Commission adopted an Order allowing Progeny to commence commercial operations of its M-LMS network on Blocks B and C of its spectrum, subject to certain conditions. See Request by Progeny LMS, LLC for Waiver of Certain Multilateration Location and Monitoring Service Rules, *Order*, 28 FCC Rcd 8555 (2013) (*Progeny Commercial Service Order*).

sufficient opportunities to provide service offerings.⁵²

II. DISCUSSION

14. *Waiver Requests.* As noted above, each of the M-LMS licensees requests a waiver or extension of the applicable construction requirements for its licenses.⁵³ In support, the licensees argue that an extension is warranted due to the regulatory uncertainty caused by the *M-LMS NPRM* and the lack of available equipment.⁵⁴

15. *Standard of Review.* Licensees may request an extension of time to construct pursuant to Section 1.946(e),⁵⁵ or a waiver of the construction requirement under Section 1.925.⁵⁶ The Commission may grant an extension of time where the licensee demonstrates that the failure to complete construction is due to causes beyond its control.⁵⁷ The Commission may grant a request for a waiver when: (i) the underlying purpose of the rule(s) would not be served or would be frustrated by application to the instant case, and a grant of the requested waiver would be in the public interest; or (ii) in view of the unique or unusual factual circumstances of the instant case, application of the rule(s) would be inequitable, unduly burdensome, or contrary to the public interest, or the applicant has no reasonable alternative.⁵⁸

16. *Discussion.* For the reasons described below, we believe that the underlying purpose of the rule would not be served by a complete denial of the requests for relief and that it is in the public interest to grant in part the requests for waiver of FCR, Wong-Armijo, PCSP, Skybridge and Telesaurus (for call sign WQGN602 only). We therefore extend the FCR, Wong-Armijo, PCSP, Skybridge and Telesaurus (for call sign WQGN602 only) mid-term construction deadline until September 4, 2016, and extend the end-of-term construction deadline until September 4, 2018, and otherwise deny the requests for extension and/or waiver. As discussed below, we also dismiss in part as moot the requests of Telesaurus.

17. In granting further relief for these M-LMS licensees, we find it most significant that the Commission has terminated the *M-LMS NPRM* proceeding,⁵⁹ thereby removing regulatory uncertainty for licensees regarding potential M-LMS rules changes, and believe a further extension for a limited period will permit M-LMS licensees to make appropriate business decisions regarding their M-LMS licenses, including deployment of services or, if necessary, to engage in secondary markets transactions. In contrast to prior Bureau decisions extending M-LMS relief, we do not rely on the current state of equipment development as justification for further limited relief to M-LMS licensees nor, as discussed below, will lack of available equipment be considered as a basis for a further extension beyond the relief granted today. We note that equipment capable of operating in the M-LMS band currently exists, and that at least one M-LMS licensee has overcome deployment challenges associated with the band and is now approved to provide commercial service.⁶⁰ We are also mindful that we have previously granted M-LMS licensees multiple extensions of time (at least seven additional years for the majority of M-LMS licenses), and that the Bureau granted relief based in part on the fact that the mid-term construction deadline was

⁵² *M-LMS Termination Order*, 29 FCC Rcd 6361, 6362 ¶ 8.

⁵³ *See supra* ¶¶ 7-11.

⁵⁴ *See* FCR Waiver Request at 2; PCSP Waiver Request at 3-5; Skybridge Waiver Request at 7; Wong-Armijo Waiver Request at 2.

⁵⁶ 47 C.F.R. § 1.925.

⁵⁷ 47 C.F.R. § 1.946(e)(1).

⁵⁸ 47 C.F.R. § 1.925(b)(3).

⁵⁹ *See supra* ¶ 13.

⁶⁰ *See Progeny Commercial Service Order*, 28 FCC Rcd 8555.

well in advance of the first renewal deadline for the licenses.⁶¹ At this point, however, licensees are beyond their renewal deadlines and the regulatory landscape for this service is no longer uncertain. Even if the equipment market does not develop consistent with M-LMS licensees' chosen business plans, licensees will nonetheless be subject to the construction requirements in the two and four year timeframes granted today for the respective interim and end-of-term benchmarks. Almost fifteen years after the initial M-LMS auction, we find this approach to be consistent with the purpose of construction requirements and our obligation to ensure that licensees effectively utilize spectrum; it would be contrary to the public interest to grant extension requests in perpetuity where our build-out requirements have not been met.

18. Accordingly, M-LMS licensees are cautioned that the Bureau will not consider future requests for waiver or extension of either the interim or end-of-term construction deadline based on claims related to lack of equipment. We remind licensees that their M-LMS licenses will terminate automatically if they fail to meet the interim or end-of-term construction deadlines pursuant to Sections 1.964(c) and 1.955(a) of the Commission's rules.⁶² We find that no adequate justification has been provided in support of the requests for further extraordinary relief of up to five and ten additional years for the respective first and second build-out benchmarks. Further, we find that it is in the public interest and consistent with purpose of the rule to ensure that M-LMS licensees meet the construction requirements for the entire license. We therefore condition this additional build-out relief as follows: Commission consent to any assignment application seeking approval for a partition and/or disaggregation prior to the licensee meeting the end-of-term construction deadline is conditioned upon each party to the partition and/or disaggregation independently meeting the construction requirement(s) for its respective license.

19. In granting relief, we also reject IEEE 802's assertion that M-LMS is an obsolete technology and is no longer viable as a competitive geolocation technology given the current availability of products utilizing GPS for geolocation services for outdoor applications, cellular mobile or Wi-Fi™ for indoor applications.⁶³ As noted, one M-LMS licensee, Progeny, was recently authorized to proceed with the launch of its commercial M-LMS network,⁶⁴ and has developed a technology examined by CSRIC and demonstrated that it provides improved location capabilities for E-911.⁶⁵ We believe the existence of competing technologies spurs innovation and provides choice to consumers, thereby furthering the public interest.

20. *Telesaurus Waiver and Extension Request.* We dismiss as moot Telesaurus' request for waiver and extension of time for 128 of its 129 M-LMS licenses.⁶⁶ Telesaurus disaggregated and assigned these M-LMS licenses to Skybridge prior to the 2012 interim construction deadline and Skybridge, the disaggregatee, assumed the construction requirements.⁶⁷ Telesaurus therefore does not have a construction obligation for these 128 licenses and its request for waiver and extension to construct these licenses is moot. However, with respect to one license, call sign WQGN602, Telesaurus'

⁶¹ See, e.g., *Havens M-LMS Order*, 19 FCC Rcd at 23744 ¶ 7; *FCR Order*, 20 FCC Rcd at 4294; *Progeny Order*, 21 FCC Rcd at 5932 ¶ 13; *M-LMS Extension Order*, 23 FCC Rcd at 17257 ¶ 22.

⁶² 47 C.F.R. §§ 1.946(c), 1.955(a).

⁶³ IEEE 802 Comments at 2-3.

⁶⁴ See *Progeny Commercial Service Order*, 28 FCC Rcd at 8555, 8561 ¶¶ 1, 13.

⁶⁵ *Id.*, 28 FCC Rcd at 8556-57 ¶ 3.

⁶⁶ See attached Appendix B.

⁶⁷ See Assignment of Authorization Application assignment from Telesaurus to Skybridge ULS File No. 0003134330 (filed Aug. 9, 2007; consummated Nov. 9, 2007). Parties seeking authority to disaggregate spectrum must certify which of the parties will be responsible for the meeting the construction requirements for the particular market. See 47 C.F.R. § 90.365(d)(2).

application to assign spectrum to Skybridge has not been granted⁶⁸ and Telesaurus remains responsible for meeting the applicable construction deadline and therefore an extension is necessary. For the reasons discussed above, we find it in the public interest to grant in part Telesaurus' waiver and extend its interim construction deadline for call sign WQGN602 until September 4, 2016 and extend the end-of-term construction deadline for call sign WQGN602 until September 4, 2018. Call sign WQGN602 is also subject to the same condition discussed above: Commission consent to any assignment seeking approval for a partition and/or disaggregation prior to the licensee meeting the end-of-term construction deadline is conditioned upon each party to the partition and/or disaggregation independently meeting the construction requirement(s) for its respective license.

21. *M-LMS Renewal Applications.* FCR, PCSP, Wong-Armijo, Skybridge and Telesaurus have filed applications seeking renewal of their M-LMS licenses, which are currently pending. Consistent with the relief we provide today, we will grant the pending renewal applications for FCR, PCSP, Wong-Armijo, Skybridge and Telesaurus (call sign WQGN602), upon the condition that the licensees timely meet their construction requirements as prescribed in this order.⁶⁹ As discussed, with the exception of call sign WQGN602, Telesaurus does not have a construction obligation for its remaining 128 M-LMS licenses and we will grant the pending renewal applications for these licenses without the construction compliance condition.⁷⁰

III. ORDERING CLAUSES

22. Accordingly, IT IS ORDERED that, pursuant to Sections 2 and 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 152, 154(i), and Sections 0.131, 0.331, 1.925, and 90.155(d) of the Commission's rules, 47 C.F.R. §§ 0.131, 0.331, 1.925, 90.155(d) the Requests for Waiver and Extension of Time filed by: FCR, Inc.; PCS Partners, L.P.; Helen Wong-Armijo; Skybridge Spectrum Foundation; Telesaurus Holdings GB, LLC, as set forth in attached Appendix A, ARE GRANTED to the extent discussed herein and are otherwise DENIED.

23. IT IS FURTHER ORDERED that, pursuant to Sections 2 and 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 152, 154(i), and Sections 0.131, 0.331, 1.925, and 90.155(d) of the Commission's rules, 47 C.F.R. §§ 0.131, 0.331, 1.925, 90.155(d) the Requests for Waiver and Extension of Time filed by Telesaurus Holdings GB, LLC, as set forth in attached Appendix B, ARE DISMISSED as moot.
