WC Docket No. 14-195
Comp. Pol. File No. 1183

Comments Due: November 17, 2014

On **October 2, 2014**, **CC Fiberlink, LLC** (CC Fiberlink or Applicant) filed an application with the Federal Communications Commission (FCC or Commission) on behalf of its affiliates (CC Fiberlink Affiliates), **Charter Fiberlink CA-CCO, LLC; Charter Fiberlink – Nebraska, LLC; Charter Fiberlink – Tennessee, LLC** (collectively, Charter Fiberlink Companies); **Charter Advanced Services (CA), LLC; Charter Advanced Services (NE), LLC** and **Charter Advanced Services (TN), LLC** (collectively, Charter Advanced Services Companies), located at **12405 Powerscourt Drive, St. Louis, Missouri 63131**, requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission’s rules, 47 C.F.R. § 63.71, to discontinue offering a certain interconnected Voice over Internet Protocol (VoIP) service in California, Nebraska and Tennessee (Affected Areas).

The application indicates that the CC Fiberlink Affiliates offer an interconnected VoIP service that is characterized as a basic local business line and provides local calling only (Affected Service). CC Fiberlink explains that the Affected Service provides the option for customers to also receive long distance service from the CC Fiberlink Affiliates or from unaffiliated intraLATA, interLATA and/or international telecommunications carriers. CC Fiberlink specifies that the CC Fiberlink Affiliates currently offer the Affected Service to business customers in the Affected Areas. CC Fiberlink states, however, that the CC Fiberlink Affiliates now intend to discontinue offering the Affected Service to new customers in the Affected Areas on December 1, 2014, or as soon thereafter as federal approval may be obtained. According to CC Fiberlink, the Charter Fiberlink Companies currently have no customers for the Affected Service and the Charter Advanced Services Companies have no current plans to discontinue providing the Affected Service to their existing customers.

CC Fiberlink maintains that the public convenience and necessity will not be adversely affected by this proposal because no existing customers will be affected and comparable services are available from other providers in the market. CC Fiberlink asserts that even when the Affected Service is grandfathered and no longer available to new customers, the Charter Advanced Services Companies intend to continue providing the service to existing customers at the same rates, terms and conditions at which they currently provide the service, until those customers voluntarily terminate their service or are terminated for non-payment or violation of the terms of service. According to CC Fiberlink, existing customers will have the ability to add or delete a second line, to add or remove vertical features on an a la

carte basis and to select an interexchange carrier of their choice. CC Fiberlink maintains that service to existing customers will not otherwise be reduced or impaired in any way. In the event that the Charter Advanced Services Companies decide to discontinue providing the Affected Services to existing customers in the future, CC Fiberlink adds that then-existing customers will be provided with appropriate notice and a discontinuance application will be filed at that time seeking authority to do so. CC Fiberlink states that the CC Fiberlink Affiliates are considered non-dominant with respect to the Affected Service.

In accordance with section 63.71(c) of the Commission's rules, CC Fiberlink's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies CC Fiberlink that the grant will not be automatically effective. In the application, CC Fiberlink indicates that the CC Fiberlink Affiliates plan to discontinue offering the Affected Service to new customers in the Affected Areas on December 1, 2014, or as soon thereafter as federal approval may be obtained. Accordingly, pursuant to section 63.71(c) and the terms of CC Fiberlink's application, absent further Commission action, the CC Fiberlink Affiliates may discontinue offering the Affected Services to new customers in the Affected Areas on or after **December 1, 2014**, in accordance with CC Fiberlink's filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **November 17, 2014**. Such comments should refer to **WC Docket No. 14-195 and Comp. Pol. File No. 1183**.
