COMMENTS INVITED ON APPLICATION OF SPRINT COMMUNICATIONS COMPANY L.P. TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES

WC Docket No. 14-203
Comp. Pol. File No. 1162

Comments Due: December 8, 2014

Section 214 Application

Applicant: Sprint Communications Company L.P.

On July 21, 2014, **Sprint Communications Company L.P.** (Sprint or Applicant), located at **6200 Sprint Parkway, Overland Park, Kansas 66251**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in Arizona, California, Colorado, the District of Columbia, Florida, Georgia, Illinois, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Oregon, Pennsylvania, Texas, Virginia and Washington (collectively, Service Areas).

Sprint indicates that it currently offers certain Sprint Integrated Local Services and associated features which it bundles with related interexchange services and features and markets as part of the Sprint Complete Access bundle. According to Sprint, its Sprint Integrated Local Services and associated features primarily consist of resold local voice services that are tariffed in several states. Sprint states, however, that due to changing market conditions, it now plans to discontinue certain Sprint Integrated Local Services and associated features in the Service Areas on or after December 22, 2014. Sprint specifies that the Sprint Integrated Local Services that it plans to discontinue include unlimited business Local Exchange Service, Touch Tone Calling Service, Integrated T1 Service, and Digital Integrated T1 Service, and the affected features include Optional Calling Features, Operator Services, Directory Assistance and Directory Assistance Calling, Listing Services, Toll Restriction Services, Caller ID Blocking, Intercept Services, Direct Inward Dialing Numbers, and 9-1-1 Telecommunications Services (collectively, Affected Services).

According to Sprint, the Affected Services are currently provided to approximately 86 unique customers at approximately 125 customer locations. Sprint emphasizes, however, that no other services or features in the Sprint Complete Access bundle will be discontinued, so customers may retain all of their other telecommunications services provided by Sprint. In addition, Sprint states that customers should be able to obtain alternatives to Sprint Integrated Local Services from other service providers that will be compatible with the remaining services in the Sprint Complete Access bundle. Sprint indicates that if customers are not able to find compatible alternatives to the Affected Services, they still should be able to obtain readily available alternatives to Sprint Complete Access services, and will be able to cease purchasing the remaining services offered in the Sprint Complete Access bundle without penalty. Sprint

maintains that the public convenience and necessity will not be adversely affected by the proposed discontinuance because the number of affected customers is limited and they have been given notice affording them ample time to acquire one of the many substitute services that are readily available to them. Sprint states that it sent notice of the proposed discontinuance to affected customers by first class mail on July 21, 2014. The Applicant asserts that it is considered non-dominant with respect to the Affected Services.

In accordance with section 63.71(c) of the Commission's rules, Sprint's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies Sprint that the grant will not be automatically effective. In its application, Sprint indicates that it plans to discontinue the Affected Services in the Service Areas on or after December 22, 2014. Accordingly, pursuant to section 63.71(c) and the terms of Sprint's application, absent further Commission action, Sprint may discontinue the Affected Services in the Service Areas on or after **December 22, 2014**, in accordance with its filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **December 8, 2014**. Such comments should refer to **WC Docket No. 14-203 and Comp. Pol. File No. 1162**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. *See Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998).
