¹ The Region 13 (Illinois) 800 MHz NPSPAC regional planning area includes the entire state of Illinois, except for the "Southern Lake Michigan" counties of Winnebago, McHenry, Cook, Kane, Kendall, Grundy, Boone, Lake DuPage, DeKalb, Will and Kankakee.

The purpose of the meetings is to discuss user needs, and plan for the continued use of the frequencies in 700 MHz and 800 MHz NPSPAC bands which includes public safety, public health, emergency management, and public utility services.

Both Region 13 700 MHz and 800 MHz Public Safety RPC meetings are open to the public. The meetings are held at locations throughout the Region 13 area to encourage wide participation. It is essential that public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's rules, 47 C.F.R. § 90.523, be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz NPSPAC bands within Region 13 should plan to attend. For further information, please contact:
