PUBLIC SAFETY AND HOMELAND SECURITY BUREAU SEEKS COMMENT ON REGION 24 (MISSOURI) 800 MHZ NPSPAC REGIONAL PLAN AMENDMENT

PR Docket No. 93-131

Comments Due: May 1, 2014

Reply Comments Due: May 12, 2014

Introduction. On November 19, 2013, the Region 24 (Missouri)¹ 800 MHz National Public Safety Plan Advisory Committee (NPSPAC) Regional Planning Committee (RPC) submitted a proposed administrative modification (Plan Amendment)² to amend its 800 MHz Public Safety Plan.³

Background. In accordance with the National Public Safety Plan, each region is responsible for planning its use of the public safety radio frequency spectrum (rebanding to the 806-824/851-869 segment).⁴

Review of the Region 24 Plan 800 MHz NPSPAC Plan Amendment. The Plan Amendment consists of three administrative updates. All modifications were approved by the regional membership, and are internal to Region 24, and therefore do not require coordination with the adjacent regions.

- Section 2.5 – Regional Review Committee (RRC) has been modified to include an expansion of the RRC⁵ duties to review all new submitted 800 MHz applications. The rewritten section

¹ The Region 24 (Missouri) 800 MHz regional planning area consists of the entire state of Missouri.

² See Letter from Stephen T. Devine, Chair, Region 24 800 MHz Regional Planning Committee, to the Federal Communications Commission, Public Safety and Homeland Security Bureau (PSHSB), PR Docket No. 93-131 (filed Nov. 19, 2013) (Plan Amendment).

³ The Region 24 (Missouri) 800 MHz NPSPAC Plan was amended in 2009, see Public Safety and Homeland Security Bureau Approves Region 24 Missouri NPSPAC Regional Planning Committee Non-Streamlined Amendment to Reflect 800 MHz Band Reconfiguration in the 806/809-851-854, WT Docket No. 02-55, PR Docket No. 93-131, *Public Notice*, 24 FCC Rcd 12164 (PSHSB 2009).

⁴ See Development and Implementation of a Public Safety National Plan and Amendment of Part 90 to Establish Service Rules and Technical Standards for Use of the 821-824/766-869 MHz Bands by the Public Safety Services, General Docket No. 87-112, *Report and Order*, 3 FCC Rcd 905 (1987). The band was modified by the Commission in the *Rebanding* proceeding, WT Docket 02-55, by shifting the NPSPAC band down by 15 megahertz to 806-824/851-869 MHz.

⁵ Plan Amendment, Section 2.5 – Regional Review Committee (revised to expand committee duties to include the review of all 800 MHz NPSPAC applications, there upon improving process efficiency).

clarifies the RRC's application review, coordination responsibilities and existing duties. Previously, the RRC reviewed only applications that fell outside the Region's stated guidelines, and was responsible for settling disputes involving application of the Plan. Existing duties also include preparation of plan amendments or modifications to the Plan when voted upon by the RPC membership.

- Section 4.1.3(I) and Section 4.1.3(II) are amended to reflect the new interoperable channel names associated with the National APCO ANSI standard channel nomenclature recommendations,⁶ and
- Section 6.0 – The Regional Planning Committee (Chairperson) is updated to reflect the current RPC chairperson and his contact information.⁷

We have reviewed the Region 24 Plan Amendment and find it to be compliant with the applicable Commission rules and policies, and tentatively accept the Plan Amendment.
