DA 14-765

Released: June 5, 2014

ENVIRONMENTAL ASSESSMENTS ACCEPTED FOR FILING

After preliminary review, the environmental assessments (EA) listed herein, filed pursuant to 47 C.F.R. § 1.1307(a), are ACCEPTED for filing.

The Wireless Telecommunications Bureau (WTB) will address the environmental factors relating to the application(s). Objections to the environmental assessments based on environmental considerations may be filed no later than 30 days from the date of this Public Notice. Oppositions to objections may be filed no later than 10 days after the objection is filed. Responses to oppositions may be filed no later than 5 business days after the time for filing an opposition has expired.

The EAs were filed by GTC Spectrum Corporation (GTCS), a subsidiary of Canadian National Railway, Inc. (CNR), pursuant to the grant of an Experimental License, WG2XVJ, issued to GTCS, ELS File No. 0389-EX-PL-2013, by the FCC Office of Engineering and Technology. Grant of the authorization was “conditioned upon GTCS’s subsequent completion of all environmental review processes for these antenna structures that were required under Part 1, Subpart 1 of the Commission’s rules to have been completed before these antenna structures were constructed.” WTB is processing the EAs for those sites covered by the Experimental License that were determined to require an EA through the environmental review process.
