Consumer and Governmental Affairs Bureau and Wireless Telecommunications Bureau Announce Agenda for Workshop on “Prevention of Mobile Device Theft”

As part of the Commission’s efforts to reduce the theft of mobile devices, the FCC’s Consumer and Governmental Affairs and Wireless Telecommunications Bureaus today release the detailed agenda for the upcoming workshop on using technical solutions and best practices to reduce the theft of mobile devices, as previously announced by Public Notice on May 20, 2014. The workshop will be held on June 19, 2014, in the Commission Meeting Room at FCC Headquarters in Washington, D.C., from 9:00 a.m. to 2:15 p.m.

Building on stakeholders’ initiatives to date, this workshop will:

- Explore ways that members of the mobile device community (providers, device manufacturers, OS providers, application developers) can improve collaboration with the law enforcement community in a collective effort to thwart mobile device theft;
- Address ways in which more timely and accurate data about mobile device theft can be made available for both law enforcement entities and others, such as secondary market resellers; and
- Discuss technology solutions that can limit the theft of mobile devices and curb effects on consumers and businesses.

Workshop Agenda

June 19, 2014

9:00 – 9:15 am

Opening Remarks

Tom Wheeler, Chairman, Federal Communications Commission
