FCC ANNOUNCES APPOINTMENT OF THE MEMBERSHIP OF THE NORTH AMERICAN NUMBERING COUNCIL

CC Docket No. 92-237

By this Public Notice, the Federal Communications Commission (FCC or Commission) announces the membership of the North American Numbering Council (NANC or Council), whose charter recently was renewed through September 18, 2017.¹ The NANC will provide advice and recommendations to the Commission to foster efficient and impartial North American Numbering Plan (NANP) administration; will advise the Commission on numbering policy and technical issues; and will help to ensure that numbering resources are available to all telecommunications service providers consistent with the requirements of the Telecommunications Act of 1996.

“The value of this federal advisory committee to the telecommunications industry and to the public cannot be overstated,” said Wireline Competition Bureau Chief Matt DelNero. “Since 1995, the Council’s recommendations to the Commission have provided critical input on numbering policy and administration. I look forward to continuing to work with the NANC on numbering policy in the important and ongoing process of transitioning TDM networks to IP, among other important issues.”
