In the Matter of
Lifeline and Link Up Reform and
Modernization
WC Docket No. 11-42

ORDER

Adopted: November 3, 2015

Released: November 3, 2015

By the Chief, Wireline Competition Bureau:

1. In this Order, the Wireline Competition Bureau (Bureau) grants the request of the Telecommunications Regulatory Board of Puerto Rico (Board) to participate in the National Lifeline Accountability Database (NLAD). This grant follows a November 30, 2012, Board petition seeking permission initially to opt out of the NLAD, which in accordance with the Lifeline Reform Order, was granted after ninety days. One year later, the Board reconsidered its original petition and requested that we instead allow Puerto Rico ETCs to use the NLAD.

2. The Bureau grants the Board's request and provides Lifeline ETCs in Puerto Rico until January 15, 2016, to load into the NLAD all records associated with households currently subscribing to Lifeline within Puerto Rico. The Bureau directs the Universal Service Administrative Company (USAC) to work with the Board and ETCs to ensure successful integration of the Puerto Rican ETC Lifeline subscriber data into NLAD. In the Lifeline Reform Order, the Commission found that in order for the NLAD to serve its intended purpose of, among other things, ensuring that more than one ETC does not seek and receive reimbursement for the same Lifeline subscriber, ETCs must populate the NLAD with the information necessary to detect duplicative support. While states had the opportunity to opt-out of the NLAD via a certification process, it would not serve the goal of eliminating duplicative Lifeline support to prevent any such state from changing its decision and participating in the NLAD, i.e., by
