Reverse Auction Opening Prices

			Opening Prices ²		
DMA Rank	DMA ¹	Call Sign	Go Off-Air	Move to Low VHF	Move to High VHF

² Opening prices calculated using the formula described in the Auction 1000 Bidding Procedures PN and in Appendix D of the Auction 1000 Application Procedures PN (rounded to the nearest integer). "NA" means that the bid option or options are not available to this station because it is on a High or Low VHF channel. "Not Needed" means the auction system has determined that this station will always have a feasible channel assignment in its pre-auction band at all of the possible auction clearing targets.
