In the Matter of

Connect America Fund
Allband Communications Cooperative
Petition for Waiver of Certain High-Cost Universal Service Rules

ORDER

Adopted: December 7, 2015 Released: December 7, 2015

By the Chief, Wireline Competition Bureau:

I. INTRODUCTION

1. In this Order, the Wireline Competition Bureau (Bureau) on an interim basis extends a waiver previously granted to Allband Communications Cooperative (Allband or company or ACC) for an additional six months until the earlier of either June 30, 2016 or the date on which further action is taken on the pending waiver request, without prejudice to the ultimate determination as to whether relief is warranted.

II. BACKGROUND

2. In the USF/ICC Transformation Order, the Commission comprehensively reformed federal universal service funding for high-cost, rural areas, adopting fiscally responsible, accountable, incentive-based policies to preserve and advance voice and broadband-capable networks while ensuring fairness for consumers and businesses that ultimately pay into the universal service fund. The Commission adopted new section 54.302, establishing a presumptive per line cap of $250 per month on total high-cost universal service support for all eligible telecommunications carriers (ETCs), including incumbent local exchange carriers (LECs), to be phased in over three years. The Commission concluded that support in excess of that amount should not be provided without further justification.

3. The USF/ICC Transformation Order noted that “any carrier negatively affected by the universal service reforms . . . [may] file a petition for waiver that clearly demonstrates that good cause exists for exempting the carrier from some or all of those reforms, and that waiver is necessary and in the public interest to ensure that consumers in the area continue to receive voice service.” The Commission

5 Id. at 17839-40, paras. 539-40. The Commission has indicated that its intent in discussing waivers relating to reductions in federal universal service fund (USF) support was not to replace the ordinary standard for granting waivers under section 1.3 of the Commission’s rules, but rather to provide guidance in advance to potential applicants of the circumstances that would be persuasive and compelling grounds for grant of a waiver under that (continued….)
stated that “[w]e envision granting relief only in those circumstances in which the petitioner can demonstrate that the reduction in existing high-cost support would put consumers at risk of losing voice services, with no alternative terrestrial providers available to provide voice telephony service.” In delegating to the Bureau the authority to approve or deny requests for waiver, the Commission indicated that it did not anticipate granting waiver requests routinely or for “undefined duration[s]” and provided guidance on the types of information that would be relevant for such requests. In the Fifth Order on Reconsideration, the Commission further clarified that “we envision granting relief to incumbent telephone companies only in those circumstances in which the petitioner can demonstrate that consumers served by such carriers face a significant risk of losing access to a broadband-capable network that provides both voice as well as broadband today, at reasonably comparable rates, in areas where there are no alternative providers of voice or broadband.”

4. On July 25, 2012, the Bureau granted Allband a three-year waiver of section 54.302 of the Commission’s rules so that Allband could receive the lesser of high-cost universal service support based on its actual costs or the annualized total high-cost support that it received for the period January 1, 2012 through June 30, 2012. In that order, the Bureau stated that if Allband determined that additional support above the $250 cap was necessary after June 30, 2015, “Allband should file with the Bureau the financial and operational information necessary for the Bureau to determine what further relief is appropriate based on the specific circumstances present at that time.”

5. On December 31, 2014, Allband filed a petition for further waiver of section 54.302 and included its 2012 and 2013 audited financial statements. In the Further Waiver Petition, Allband requests that the Commission extend Allband’s current waiver for an additional 12 years. Allband states that a waiver is necessary to allow Allband to continue to provide voice services, repay its Rural Utilities

Service loan, and continue operations.\textsuperscript{15} Subsequently, on May 18, 2015, Allband filed its 2014 audited financial statements.\textsuperscript{16}

6. On June 29, 2015, the Bureau extended the July 2012 Waiver on an interim basis for six months until the earlier of either December 31, 2015 or the date on which further action was taken on the pending Further Waiver Request, without prejudice to the ultimate determination as to whether relief is warranted.\textsuperscript{17} In the Order, the Bureau also directed the Universal Service Administrative Company (USAC) to undertake inquiries on certain accounting issues and report its findings to the Bureau.\textsuperscript{18}

7. On October 23, 2015, USAC submitted a memorandum summarizing the results of its inquiries into the record.\textsuperscript{19} On November 12, 2015, Allband filed a response to the USAC Memorandum.\textsuperscript{20}

III. DISCUSSION

8. Allband’s response to the USAC Memorandum raises several accounting and cost allocation issues that require further Bureau analysis. Therefore, we extend the July 2012 Waiver on an interim basis until the earlier of either June 30, 2016 or the date on which further action is taken on the pending Further Waiver Petition. As such, USAC shall continue to provide to Allband the lesser of high-cost universal service support based on Allband’s actual costs or the annualized total high-cost support that it received for the period January 1, 2012 through June 30, 2012.\textsuperscript{21} This will maintain the status quo while the Bureau continues to review the information in the record. We note that universal service support amounts may be adjusted retroactively if it is determined that Allband has received support amounts in the past to which it was not entitled.\textsuperscript{22}
