<sup>2</sup> The Delaware River and Bay Authority Toll Plaza resides on the Delaware side of the Delaware Memorial Bridge and the Delaware 9 (New Castle Avenue) cloverleaf interchange.

The Region 28 700 MHz and 800 MHz Regional Planning Committee meetings are open to the public. All eligible public safety providers whose sole purpose or principal purpose is to protect the safety of life, health, or property within Region 28 would utilize these frequencies. It is essential that not only public safety, but all government, Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's Rules be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not conversant with telecommunications technology should ensure that their respective agencies are represented by suitably conversant staff.

All interested parties wishing to participate in the planning for the use of the Public Safety spectrum in the 700 MHz band and 800 MHz NPSPAC spectrum within Region 28 are encouraged to attend.
