Section 214 Application

Applicant: AT&T Services, Inc. on behalf of SBC Long Distance, LLC d/b/a AT&T Long Distance

On **January 13, 2015**, **AT&T Services, Inc.** (AT&T or Applicant) filed an application with the Federal Communications Commission (FCC or Commission) on behalf of its affiliate, **SBC Long Distance, LLC d/b/a AT&T Long Distance** (AT&T LD or Applicant), located at **P.O. Box 9041, South San Francisco, CA 94083**, requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services throughout the United States including all fifty states, the District of Columbia and the U.S. territories of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico and the U.S. Virgin Islands (collectively, Service Areas).¹ On February 9, 2015, AT&T updated the record regarding notice provided to customers.²

AT&T indicates that AT&T LD currently offers AT&T Long Distance Calling Card Service and Value Card Plus Service in the Service Areas (Affected Services). According to AT&T, these services are long distance calling card services that allow users to place intrastate, interstate and/or international calls by dialing a company-provided toll-free access code or number. AT&T explains that the Affected Services also allow such calls to be billed to the customer's telephone bill after the call is placed. AT&T states, however, that residential calling card usage has been declining for several years due to the market growth of other communications methods including mobile phones, email, social media streams and voice over Internet Protocol. Accordingly, AT&T indicates that AT&T LD now plans to discontinue the Affected Services in the Service Areas on or after March 2, 2015, subject to Commission authorization.³ The

¹ See Section 63.71 Application of SBC Long Distance, LLC d/b/a AT&T Long Distance For Authority Pursuant to Section 214 of The Communications Act of 1934, As Amended, To Discontinue the Provision of Service, WC Docket No. 15-31 (filed Jan. 13, 2015), <http://appsint.fcc.gov/ecfs/comment/view?id=60001008355> (Application).

² See Letter from Terri L. Hoskins, General Attorney, AT&T Services Inc., to Marlene Dortch, Secretary, Federal Communications Commission, WC Docket No. 15-31 (filed Feb. 9, 2015).

³ Discontinuance of international service is governed by section 63.19 of the Commission's rules. See 47 C.F.R. § 63.19.

Applicant emphasizes that this proposed discontinuance will not impact any of AT&T LD's prepaid calling cards or any prepaid minutes associated with those cards. In addition, AT&T maintains that the public convenience and necessity will not be adversely affected by the proposed discontinuance due to the very low demand for these services and the existence of various alternatives. AT&T states that AT&T LD sent notice to customers in their monthly bill via U.S. Mail between December 3, 2014 and January 12, 2015. According to AT&T, customers who elected not to receive paper bills received the notice in the electronic copy (PDF version) of their on-line bill. AT&T represents that it also posted a copy of the notice on its service publications website on February 4, 2015.⁴ AT&T asserts that AT&T LD is considered non-dominant with respect to the services to be discontinued.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies AT&T that the grant will not be automatically effective. In the Application and notice to customers, AT&T indicates that AT&T LD plans to discontinue the Affected Services in the Service Areas on or after March 2, 2015, subject to Commission authorization. Accordingly, pursuant to section 63.71(c) and the terms of the Application and notice, absent further Commission action, AT&T LD may discontinue the Affected Services in the Service Areas on or after **March 15, 2015**, in accordance with AT&T's filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

We seek comment on the proposed discontinuance of services, including the steps taken to notify customers in light of the notification procedures prescribed in section 63.71(a) of the Commission's rules. Comments objecting to this application must be filed with the Commission on or before **February 27, 2015**. Such comments should refer to **WC Docket No. 15-31 and Comp. Pol. File No. 1202**.
