MEDIA BUREAU SEEKS COMMENT ON NATIONAL ASSOCIATION OF BROADCASTERS' PETITION FOR WAIVER OF ACCESSIBLE EMERGENCY INFORMATION REQUIREMENTS

MB Docket Nos. 12-107, 11-43

Comment Date: April 13, 2015

Reply Comment Date: April 20, 2015

The National Association of Broadcasters (“NAB”) has filed a petition¹ requesting that the Commission grant a temporary partial exemption and limited waiver of the Commission’s rules requiring broadcasters to provide an aural representation of visual emergency information on a secondary audio stream. Section 79.2(b)(2)(ii) of the Commission’s rules requires video programming providers to ensure that emergency information provided visually during non-newscast programming is made accessible to individuals who are blind or visually impaired through the use of a secondary audio stream to provide such information aurally.² The rule sets a compliance deadline of May 26, 2015.³

First, NAB requests that the Commission grant a six-month partial exemption from or limited waiver of the requirement to provide an aural representation of visual emergency information on a secondary audio stream until November 26, 2015.⁴ NAB argues that an extension of the compliance deadline is needed because the hardware and software necessary for broadcasters to aurally transcribe emergency information crawls has not yet been released and delivered by the vendors in many cases, and

² 47 C.F.R. § 79.2(b)(2)(ii). In particular, the rule provides that the video programming provider or video programming distributor that creates the visual emergency information content and adds it to the programming stream is responsible for providing an aural representation of the information on a secondary audio stream, accompanied by an aural tone. *Id.* See also *Accessible Emergency Information, and Apparatus Requirements for Emergency Information and Video Description: Implementation of the Twenty-First Century Communications and Video Accessibility Act of 2010; Video Description: Implementation of the Twenty-First Century Communications and Video Accessibility Act of 2010*, Report and Order and Further Notice of Proposed Rulemaking, 28 FCC Rcd 4871, 4899, ¶ 36 (2013) (“*Emergency Information/Video Description Order*”).

additional time is needed for testing, order, shipment, and installation of the solution developed by the vendors.⁵ Second, NAB asks that the Commission waive the requirement that visual but non-textual emergency information be included in the aural representation of emergency information on the secondary audio stream until technological solutions are available.⁶ According to NAB, it is currently infeasible to comply with this requirement with respect to radar maps and similar moving graphics because they do not contain text files that can be converted to speech.⁷ Finally, NAB requests that the Commission temporarily waive the requirement to aurally convey school closing information on the secondary audio stream while NAB considers alternatives with input from stakeholders.⁸ We seek comment on NAB's requests.

Pursuant to sections 1.415 and 1.419 of the Commission's rules, 47 CFR §§ 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document.
