DA 15-72

Released: January 21, 2015

**Wireless Telecommunications Bureau Reminds Licensees and Registrants of the Effective Date of
Final Procedures for Implementing Enhancements to the Commission's Universal Licensing
System and Antenna Structure Registration System for Providing Access to
Official Electronic Authorizations**

WT Docket No. 14-161

Effective Date: February 17, 2015

On December 18, 2014, the Wireless Telecommunications Bureau (Bureau) released a *Final Procedures Public Notice* announcing the implementation of further enhancements to the Commission's Universal Licensing System (ULS) and Antenna Structure Registration (ASR) System and adopting final procedures for providing access to official electronic authorizations through those systems.¹ Under the procedures, all commercial, private and public safety wireless service licensees and ASR registrants will access their current official authorizations in "Active" status only through License Manager in ULS or ASR Dashboard in the ASR System or by email, unless a licensee or registrant notifies the Commission by changing the default setting in either system, or by webpage or phone via the Licensing Support Center, or by letter to the Bureau's Technologies, Systems and Innovation Division, that it wishes to receive its official authorizations on paper through the U.S. Postal Service.

As explained in the *Final Procedures Public Notice*, the procedures adopted in that notice become effective 30 days after publication of the notice in the Federal Register.²

By this *Public Notice*, the Bureau notes that the *Final Procedures Public Notice* was published in the Federal Register on January 16, 2015.³ Accordingly, the Bureau reminds licensees and registrants that the effective date of the final procedures, as published in the Federal Register, is February 17, 2015.

For further information contact Cyndi Thomas, Mobility Division, Wireless Telecommunications Bureau, at (202) 418-2018 or via email at Cyndi.Thomas@fcc.gov.
